Elektronski časopisi

Kod većine izdavača KoBSON pretplaćuje časopise u punom tekstu od 1997. godine, dok su ranija godišta dostupna do nivoa abstrakta. Predmetna, ili autorska, pretraživanja po člancima, moguće je obaviti:

- (1) na veb stranici izdavača izabranog iz menija, korišćenjem opcije brzo pretraživanje
- (2) na veb stranici izdavača
- (3) na veb stranicama agregatora (EBSCO, ProQuest)
- (4) indeksne baze (Web of Science, Scopus, Scindeks)

Elektronski časopisi:

Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

Izdavači:

AC	American Chemical Society
AP	American Institute of Physics
PA	American Psychological Association
CU	Cambridge University Press
EM	Emerald Publishing

Servis EleKnjige

- Pretraga svih elektronskih knjiga pretplaćenih i dostupnih akademskoj zajednici Srbije.
- Obuhvata kolekciju od preko **150.000 naslova knjiga**, publikovanih od strane najpoznatijih izdavača naučnih informacija – **Elsevier, Springer, Oxford, Cambridge** i dr.

Kategorizacija domaćih naučnih časopisa za 2015. i 2016. godinu

Ministarstvo prosvete, nauke i tehnološkog razvoja je objavilo **kategorizaciju domaćih naučnih časopisa za 2015. i 2016. godinu**.

Liste kategorizacija domaćih naučnih časopisa za period od 2006. do 2016. godine možete pogledati i na KoBSON stranici **Kategorizacija domaćih časopisa**.

(objavljeno 28.07.2017.)

Novo iz RSC-a

Obaveštavamo korisnike da je izdavač Royal Society of Chemistry (RSC) uveo niz pogodnosti za krajnje korisnike i publikovao, kako nove časopise, tako i Online platforme za besplatnu edukaciju.

Novo iz JSTOR-a – Open Access Books

Obaveštavamo korisnike da je lista elektronskih knjiga, u bazi EleKnjige, ažurirana sa preko 400 novih naslova. Listu je objavio agregator JSTOR i sve knjige se nalaze u Open Access režimu i slobodne su kako za pregled, tako i za preuzimanje. Listu novih naslova možete pogledati na sledećem **linku**.

Servisi

U 2016. godini, iz akademskih institucija u Srbiji, dostupno je preko 35.000 naslova stranih naučnih časopisa u punom tekstu, blizu 160.000 naslova knjiga, kao i nekoliko indeksnih baza podataka. Pretraživanje na KoBSON portalu moguće je obaviti samo prema naslovu časopisa ili knjige. Većina časopisa je u punom tekstu dostupna od 1997. godine, dok su ranija godišta dostupna do nivoa abstrakta. Za predmetna pretraživanja po člancima upućujemo Vas ili na nekog od agregatora, ili direktno na sajt izdavača.

Pretraživanje časopisa: Spisak svih časopisa koji su na neki način dostupni u bibliotekama Srbije (bilo elektronski, bilo u papirnoj formi), proširena naslovima časopisa koji su imali Impact Faktor u poslednjih dvedeset godina. Prisustvo časopisa na toj listi je samo pokazatelj njegove dostupnosti, a nikako kvaliteta.

Objedinjena pretraga svih servisa: Pretraga se vrši preko servisa EBSCO Discovery, u okviru forme za pretragu na početnoj stranici KoBSON sajta, kao i odabirom opcije EBSCO Discovery Service na EBSCO platformi.

Elektronski časopisi: Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

- Repozitorijum **55 naslova** domaćih naučnih časopisa sa arhivom punih tekstova od 2002. godine do danas.
- Trenutno broji preko **34.000** članaka opremljenih DOI brojem.

Novi izgled KoBSON sajta

Usled mnogobrojnih pohvala novog izgleda KoBSON sajta, objavljujemo prvu pristiglu, a našu korisnicu nagrađujemo KoBSON kišobranom.

„Poštovani, srdačno Vam čestitam pokretanje novog vizuelno i sadržajno unapređenog web-site, najlepše hvala u ime naučne zajednice Vojvodine i Srbije na Vašem radu i važnom doprinosu našoj nauci.“

Zahvaljujemo 😊

(objavljeno 10.04.2017.)

Dragi korisnici, dobro došli na novi sajt KoBSON-a. U skladu sa potrebama naučnika i istraživača, novi sajt je korisnički orijentisan, informativan i prilagođen uređajima različitih rezolucija - kako desktop i laptop računarima, tako tabletima i mobilnim telefonima.

CPN otvara Naučni klub u Beogradu

Centra za promociju nauke (CPN) sutra, **06. aprila 2017. godine** otvara Naučni klub u Beogradu u Ulici kralja Petra

Abstract | PDF (7.5MB)

Embryonic Stem Cells/Induced Pluripotent Stem Cells

EMBRYONIC STEM CELLS/INDUCED PLURIPOTENT STEM CELLS

Concise Review: Induced Pluripotent Stem Cell-Based Drug Discovery for Mitochondrial Disease

Gizem Inak, Carmen Lorenz, Pawel Lisowski, Annika Zink, Barbara Mlody, Alessandro Prigione

First Published: 22 May 2017 Vol: 35, 1655–1662 | DOI: 10.1002/stem.2637

Abstract | Full Text (HTML) | PDF (381.4KB) | References

Once induced pluripotent stem cells (iPSCs) have been derived from mitochondrial patients, isogenic controls can be generated using genome editing technologies. Correcting the mutations is, however, currently very challenging in the case of mtDNA. The choice of an effective neural cell model is critical for enabling the establishment of high-throughput compound screenings. The screenings can be developed based on targets that

are already known or on cellular phenotypes that are identified using the iPSC-derived neural cells. After the screenings, several validation steps using various methods and model systems are necessary before being able to propose any compound as a treatment, leading to a personalized strategy for drug discovery of neurological mitochondrial disease.

10⁴ live CD117+ per fetus at a gestational age of 13-14 days (E13-E14; term E21) [1].

An increasing number of publications describe AFSC isolation using culture conditions alone (no CD117 selection at any stage). In the majority of these studies, amniocytes are plated in tissue culture-treated dishes in high-serum media (DMEM, with 10%-20% FBS, with or without basic fibroblast growth factor/FGF-2) [29], and cells have largely mesodermal potential (i.e., they can generate adipogenic, chondrogenic, osteogenic, and myogenic lineages; likely to be AFMSC) [21, 30], although some authors have reported multi-lineage differentiation potential not restricted to mesoderm (including neural differentiation, as well as embryoid body formation) [31-35]. In other cases, it has been observed that cells with similar potentials to AFSC can be derived using precise culture methodology but without positive selection [25, 27]. AFSC, derived by positive selection or by expansion conditions, have a cellular phenotype that is between ESCs and adult mesenchymal stem cells (MSC; see Cellular Characteristics and Fig. 1 below) [17]; this is in contrast to other amniotic fluid-derived cells with a purely mesenchymal phenotype [29], with obvious implications regarding potential regenerative medicine applications. For the rest of the present review, we will focus our discussion on CD117+ AFSC only.

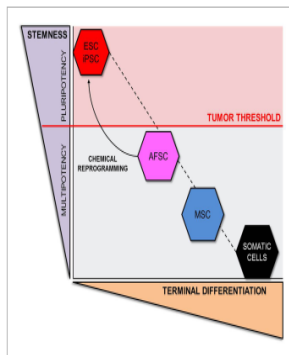

Figure 1.

[Open in figure viewer](#) | [Download Powerpoint slide](#)

AFSC have an intermediate cellular phenotype between ESCs/iPSC and MSC. This is supported by expression of both markers/transcription factors of pluripotency and mesenchymal commitment, as well as their broadly multipotent nature (ability to

STEM CELLS **CANCER STEM CELLS**

Myeloma Propagating Cells, Drug Resistance and Relapse

ANASTASIOS KARADIMITRIS,^{a,b} ARISTEIDIS CHAIDOS,^{a,b} VALENTINA CAPUTO,^a KATERINA GOUDENOU,^a KANAGARAJU PONNUSAMY,^a XIAOLIN XIAO^a

Key Words. B lymphocytes • Cancer • Cancer stem cells • Stem cell plasticity • Xenotransplantation • Hematologic malignancies • Flow cytometry • Epigenetics

ABSTRACT

Multiple myeloma (MM) is an incurable tumor of the plasma cells, the terminally differentiated immunoglobulin secreting B lineage cells. The genetic make-up of MM has been extensively characterized but its impact on the biology of the disease is incomplete without more precise knowledge of the identity and functional role of cells with multiple myeloma propagating activity (MMPA). We review here recent data that link MMPA with myeloma clonal populations organized in a cellular hierarchy that mirrors normal B cell development and also with drug resistance and disease relapse. We further propose a conceptual framework which, with optimal use of recent technological advances in genomics and phenomics, could allow dissection of the cellular and molecular properties of cells with MMPA, drug resistance and in vivo relapse in an integrated and patient-specific manner. There is real hope that these approaches will significantly contribute to further improvements in disease control, overall survival, and possibly cure of patients with MM. *STEM CELLS* 2015;33:3205-3211

SIGNIFICANCE STATEMENT

In this review article we attempt to provide an integrated view of the data that link multiple myeloma propagating cells (MMPA) with drug resistance and disease relapse. We also provide a blueprint for a tri-dimensional study of MMPA and drug resistance in myeloma patients i.e., diagnosis vs remission/relapse; bone marrow vs distant disease and within the cellular architecture of the tumour itself by utilizing the unprecedented power of the new high throughput technologies. It is hoped that such approaches will contribute in the more in-depth understanding of the mechanisms that sustain survival and growth of myeloma cells and will identify new therapeutic targets.

Received May 12, 2015; accepted for publication July 16, 2015; first published online in *STEM CELLS EXPRESS* August 25, 2015.

Servisi

U 2016. godini, iz akademskih institucija u Srbiji, dostupno je preko 35.000 naslova stranih naučnih časopisa u punom tekstu, blizu 160.000 naslova knjiga, kao i nekoliko indeksnih baza podataka. Pretraživanje na KoBSON portalu moguće je obaviti samo prema naslovu časopisa ili knjige. Većina časopisa je u punom tekstu dostupna od 1997. godine, dok su ranija godišta dostupna do nivoa abstrakta. Za predmetna pretraživanja po člancima upućujemo Vas ili na neko od agregatora, ili direktno na sajt izdavača.

Pretraživanje časopisa: Spisak svih časopisa koji su na neki način dostupni u bibliotekama Srbije (bilo elektronski, bilo u papirnoj formi), proširena naslovima časopisa koji su imali Impakt Faktor u poslednjih dvadeset godina. Prisustvo časopisa na toj listi je samo pokazatelj njegove dostupnosti, a nikako kvaliteta.

Objedinjena pretraga svih servisa: Pretraga se vrši preko servisa EBSCO Discovery, u okviru forme za pretragu na početnoj stranici KoBSON sajta, kao i odabirom opcije EBSCO Discovery Service na EBSCO platformi.

Elektronski časopisi: Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

Kategorizacija domaćih naučnih časopisa za 2015. i 2016. godinu

Ministarstvo prosvete, nauke i tehnološkog razvoja je objavilo kategorizaciju domaćih naučnih časopisa za 2015. i 2016. godinu. Liste kategorizacije domaćih naučnih časopisa za period od 2006. do 2016. godine možete pogledati i na KoBSON stranici Kategorizacija domaćih časopisa.

(objavljeno 28.07.2017.)

Novo iz RSC-a

Obaveštavamo korisnike da je izdavač Royal Society of Chemistry (RSC) uveo niz pogodnosti za krajnje korisnike i publikovao, kako nove časopise, tako i Online platforme za besplatnu edukaciju.

RSC ne sadrži časopise samo iz oblasti hemije, već i iz mnogih srodnih disciplina kao što su biologija, životna sredina i sl. (pogledajte celu listu u sledećem PDF-u). Kolekcija RSC Gold 2017 okuplja 36 visoko kvalitetnih časopisa iz oblasti hemije i drugih srodnih oblasti.

Dva časopisa koja imaju IF su prešla na režim otvorenog pristupa - RSC Advances i Chemical Science. Dobra vest za autore je da je objava radova u drugom časopisu, Chemical Science, besplatna do kraja sledeće godine. APC (Article Processing Charge) se naplaćuje za prvi časopis, RSC Advances, a tim što je omogućen popust za sve zainteresovane koji će trajati takođe do kraja sledeće godine.

Ono što je novina i svakako preporuka za sve istraživače, jesu besplatne Online platforme - LearnChemistry i ChemSider.

Novo iz JSTOR-a - Open Access Books

Obaveštavamo korisnike da je lista elektronskih knjiga, u bazi EleKnjige, ažurirana sa preko 400 novih naslova. Listu je objavio agregator JSTOR i sve knjige se nalaze u Open Access režimu i slobodne su kako za pregled, tako i za preuzimanje. Listu novih naslova možete pogledati na sledećem linku.

(objavljeno 27.07.2017.)

Objavljen SJR (SCImago Journal Rank) servisa SCImago za 2016. godinu

SCImago je objavio SJR (SCImago Journal Rank) za 2016. godinu. Podaci su postavljeni u okviru odeljka Moždva vam zatreba - Vrednovanje - SJR - SCImago i takođe se mogu pogledati na zvaničnoj stranici ovog servisa.

(objavljeno 04.07.2017.)

EBSCO Discovery Service

- Servis za objedinjenu pretragu sadržaja
- Pružta mogućnost pretrage svih pretplaćenih servisa, preko 35.000 časopisa, preko 150.000 knjiga, kao i brojne sadržaje dostupne u režimu otvorenog pristupa.

Agregatori i izdavači

Dostupni izdavači:

AC, AP, CU, EM, IOP, OX, SG, SD, SP, WI, ASME, RSC
(puni tekstovi članka često dostupni el. pre njihovog štampanja u papirnoj formi)

Dostupni agregatori:

EB, FM, HE, HW, JS, TE

(baze koje sadrže časopise više izdavača, često sadrže "embargo" period 3, 6 ili 12 meseci)

Bulovi operatori

AND	Finds documents containing all of the specified words or phrases. Peanut AND butter finds documents with both the word peanut and the word butter.
OR	Finds documents containing at least one of the specified words or phrases. Peanut OR butter finds documents containing either peanut or butter. The found documents could contain both items, but not necessarily.
AND NOT	Excludes documents containing the specified word or phrase. Peanut AND NOT butter finds documents with peanut but not containing butter. NOT must be used with another operator, like AND.
NEAR	Finds documents containing both specified words or phrases within 10 words of each other. Peanut NEAR butter would find documents with peanut butter, but probably not any other kind of butter.
*	The asterisk is a wildcard; any letters can take the place of the asterisk. Bass* would find documents with bass, basset and bassinet. You must type at least three letters before the *. You can also place the * in the middle of a word. This is useful when you're unsure about spelling. Colo*r would find documents that contain color and colour.

Title: Antibiotic resistance: what can we do? By: Warren, Ed, Practice Nurse. 89536612, Jan2016, Vol. 46, Issue 1
 Database: Business Source Premier

Antibiotic resistance: what can we do?

Listen American Accent Australian Accent British Accent

When we think of antibiotic resistance, we often think of superbugs causing common infections. But antibiotic resistance is a global problem that prevents the arrival of a post-antibiotic era.

As we lurch along in the 21st Century, when the biggest UK killers are cancer and ischaemic heart disease, it is hard to appreciate the role that infectious diseases played before the middle of the 20th Century. Certainly cancer and heart disease existed, but it was infections that frightened people. Industrialisation brought outbreaks of cholera and typhoid to the squalid urban poor. Before that, waves of plague swept the country, and indeed Europe, at regular intervals, with mortality rates that almost defy belief. But perhaps the most telling example of historical killer infections was tuberculosis (TB).

Though accurate records are difficult to acquire, it is believed that TB killed one-third of all those who died in Britain between 1800 and 1850.1 Furthermore it targeted young adults, people who would otherwise be economically active and bringing up children. Like many infectious diseases, the outlook for succumbing to TB improved markedly with improved social conditions and hygiene, but another significant contribution was made by the discovery of drugs that would kill the causative mycobacterium. This was a triumph for science and social progress: in 1913 there were 120,000 cases of TB notified in England and Wales and 39,000 deaths (from a rather smaller national population, and at a time when notification was probably less complete), but by 2013 there were only 7,400 cases notified and 280 deaths.2 However, the 2013 figure is not zero and one important reason for this is the emergence of strains of the TB bacillus which are resistant to multiple antibiotics. If, or more probably when, other seriously nasty infections follow the same pattern (and there is plenty of evidence that this is already happening) we will again face the awful prospect of dealing with waves of incurable infectious diseases. The stakes are really that high.

THE SCALE OF THE PROBLEM

It has been apparent for some years that **resistance** to the **antibiotics** generally used in the treatment of bacteria is becoming more common (it is, of course, the bacteria which acquire **resistance**, not individual patients). Public Health England estimates that by 2050, antimicrobial **resistance** (AMR) will cost the global economy \$100 trillion. This also translates into 10 million deaths globally.3 AMR is truly an international concern as infectious diseases are these days concentrated in less economically developed countries, countries that also are going to be less able to pay the costs. The World Health Organization4 is deeply concerned about AMR, stating: "Without urgent, coordinated action, the world is heading towards a post-antibiotic era, in which common infections and minor injuries, which have been treatable for decades, can once again kill." (Pedantic note: antimicrobial **resistance** refers to **resistance** to **antibiotics**, but also to anti-fungal and anti-viral drugs. As **antibiotics** are used much more in primary care than the other two categories, this article focuses on **antibiotics**).

The screenshot shows the KoBSON website interface. At the top, there is a navigation menu with the following items: KoBSON, INFORMACIJE, NAUKA U SRBIJI, **SERVISI** (highlighted with a red circle), MOŽDA VAM ZATREBA, and SUGESTIJE I ZAMERKE. Below this is a secondary menu with: Pretraživanje časopisa, **Elektronski časopisi** (highlighted with a red circle), Pretraživanje knjiga, Elektronske knjige, Indeksne baze, and Strane doktorske disertacije. Below the secondary menu is a link for Časopisi u papiru.

The main content area is titled "Elektronski časopisi" and includes a breadcrumb trail: Početak / **SERVISI** / Elektronski časopisi. Below the title is an "EDS Publication Finder" search box with the EBSCO Discovery Service logo. The search box contains a "Keyword" input field, a "Search" button, and checkboxes for "Full-Text (online)" and "Peer Reviewed".

Below the search box, there is a paragraph of text: "Kod većine izdavača KoBSON pretplaćuje časopise u punom tekstu od 1997. godine, dok su ranija godišta dostupna do nivoa abstrakta. Predmetna, ili autorska, pretraživanja po člancima, moguće je obaviti:"

Below this paragraph is a list of five numbered options:

- (1) na veb stranici izdavača izabranog iz menija, korišćenjem opcije brzo pretraživanje
- (2) na veb stranici izdavača
- (3) na veb stranicama agregatora (EBSCO)
- (4) indeksne baze (Web of Science, Scopus, Scindeks)
- (5) objedinjena pretraga svih servisa (EBSCO Discovery Service)

Below the list is a section titled "Elektronski časopisi:" with the text "Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta." and "Izdavači:".

Below the text is a list of publishers, each with a two-letter code and the publisher's name:

- AC American Chemical Society
- AP American Institute of Physics
- PA American Psychological Association / APA
- ME ASME Transaction Journals
- CU Cambridge University Press
- EM Emerald Publishing
- IO Institute of Physics Publishing
- OX Oxford Journals
- RC Royal Society of Chemistry
- SG SAGE Publishing
- SD Science Direct** (highlighted with a red circle)
- SP Springer/Kluwer
- WI Wiley Interscience

On the right side of the page, there is a "Korisni linkovi" section with several sub-sections: "NOVI KORISNICI" (Ko ima pravo pristupa, Kome je KoBSON dostupan), "KAKO KORISTITI KoBSON" (Pretraživanje časopisa, Pretraživanje Naši u WoS, Kako 'od kuće' do KoBSON-a, KoBSON na Facebook-u), "KoBSON ZA POČETNIKE", "ČESTA PITANJA O:" (Dostupnosti KoBSON-a, Naši u WoS, Našim časopisima, Citiranosti autora), "SKRAĆENICE NA KoBSONu", "DIGITALNI REPOZITORIJUM NARODNE BIBLIOTEKE SRBIJE", "NAĐI DOI", "GOOGLE SCHOLAR", "DOI SERBIA" (doiSerbia časopisi, doiSerbia teze), and "BRZA STRANICA".

At the bottom of the page, there is a "Newsletter" section.

Efficient Derivation of Functional Human Airway Epithelium from Pluripotent Stem Cells via Temporal Regulation of Wnt Signaling Original Research Article

Cell Stem Cell, Volume 20, Issue 6, 1 June 2017, Pages 844-857.e6

Katherine B. McCauley, Finn Hawkins, Maria Serra, Dylan C. Thomas, Anjali Jacob, Darrell N. Kotton

Abstract | Graphical abstract | Research highlights | PDF (4971 K) | Supplementary content

Kotton and colleagues show that carefully timed regulation of Wnt signaling can direct human pluripotent cells to differentiate rapidly into functional airway epithelial organoids with many potential applications in disease modeling, drug screening, and precision medicine, and for diseases such as cystic fibrosis.

Making human cardiomyocytes up to date: Derivation, maturation state and perspectives Original Open Access

Histone Demethylase Expression Enhances Human Somatic Cell Nuclear Transfer Efficiency and Promotes Derivation of Pluripotent Stem Cells Open Archive

Cell Stem Cell, Volume 17, Issue 6, 3 December 2015, Pages 758-766

Young Gie Chung, Shogo Matoba, Yuting Liu, Jin Hee Eum, Falong Lu, Wei Jiang, Jeoung Eun Lee, Vicken Sepilian, Kwang Yul Cha, Dong Ryul Lee, Yi Zhang

Abstract | Graphical abstract | Research highlights | PDF (2931 K) | Supplementary content

Zhang and colleagues show that, as they found previously in mouse, injection of a histone demethylase improves the efficiency of human SCNT reprogramming. Using this approach they were able to reduce variability in success from different egg donors and derive human NT-ESC lines from patients with age-related macular degeneration.

Differentiation and sarcomere formation in skeletal myocytes directly prepared from human induced pluripotent stem cells using a sphere-based culture Original Research Article

Differentiation, In Press, Accepted Manuscript, Available online 1 August 2017

Highlights

- H3K9me3 is a barrier for human SCNT reprogramming as in mouse
- Injection of human KDM4A mRNA improves SCNT success in mouse oocytes
- KDM4A also improves human SCNT blastocyst formation and NT-ESC derivation
- H3K9me3 removal facilitates zygotic genome activation in human SCNT embryos

TEEAL

iz akademske institucije	udaljeni pristup
(podešavanje Proxy servera)	(o pristupu 'od kuće')

O TEEAL (The Essential Electronic Agricultural Library) bazi

TEEAL je elektronska baza podataka koja sadrži preko 275 naslova časopisa od preko 90 izdavača iz oblasti agrikulture. Pretražive su agrikulturna ekonomija, poljoprivredna tehnika, agronomija, usevi i nauka o zemljištu, entomologija, upravljanje prirodnim resursima, šumarstvo, upravljanje poljoprivredom, ishrana i nauka o hrani, biljna patologija, ruralni razvoj, održiva poljoprivreda, veterina i slične nauke i discipline.

Kratko uputstvo o pretraživanju baze

Bazu je moguće pretraživati po temi ili ključnim rečima, pri čemu se pretraga termina vrši u naslovu, autorima i sažetku. Ako želite konkretnu pretragu po naslovu, autoru ili sažetku izaberite odgovarajuću stavku iz padajuće liste.

Takođe je omogućeno i napredno pretraživanje – pretraživanje po više različitih kriterijuma istovremeno - po zadatoj temi ili autoru, sa ograničavanjem na pojedinu godinu i/ili na pretraživanje samo u okviru jednog naslova časopisa. Izborom pojedinačnog naslova časopisa dobija se lista svih radova objavljenih od 1993. godine, – izlistanih obrnuto-hronološki – od najnovijih ka starijim godištim, ali se pretraživanje može ograničiti i na samo jednu godinu.

Naslov	Kyoto protocol and social accounting implication on global-warming in Malaysia: an action research approach
Autor(i)	Yee-LeeMei, Susela-Devi, Khin-WongSek-[Khin-W-S-E-]
Abstract	This study examines the relationship between social change demands and tactical decision making processes resulting from apparent global-warming and climate-change by employing an action research methodology. The objective was to uncover the perceptions of Malaysian corporate management concerning the present debate on climate change. These corporate officers occupy the top decision making positions that disperse the day to day operational decisions as well as being directly involved with longer term considerations, particularly of the financial implications of the debates and forthcoming national and international legal implications concerning global-warming/climate-change. This research is a descriptive study. Interviews with the management of 30 randomly selected companies were conducted, and the results and conclusions support the view that carbon trading is not an effective approach to resolve the apparent carbon dioxide problem. This study has provided greater understanding of the corporate view regarding measures aimed at prevention of large rise in global temperatures.
Description	air-pollution. carbon. carbon-dioxide. carbon-markets. climate. climatic-change. control. decision-making. international-agreements. methodology. pollution. research. temperature

Indeksne baze

Indeksne baze podataka sadrže bibliografske podatke o radovima iz časopisa koji su u njima zastupljeni. Za svaki članak dati su detaljni podaci:

- autor rada i institucija
- naslov rada
- naziv časopisa
- godina
- jezik rada
- tip rada
- sažetak

Ukoliko zapis obuhvata i popis korišćene literature, takve baze nazivamo citatnim (Web of Science, Scopus, Srpski citatni indeks).

O bazi

MEDLINE je vodeća svetska bibliografska baza iz oblasti biomedicinskih nauka. Dostupna je besplatno.

Pored bibliografskih podataka o svakom članku iz preko 5.000 časopisa, uspostavljen je i link do punog teksta. Dostupnost članka u punom tekstu uslovljena je pretplatom na elektronsku verziju časopisa (preko KoBSON-a ili na neki drugi način).

Svaki članak se indeksira odrednicama iz kontrolisanog terminološkog tezaurusa Medical Subject Headings - MeSH (<http://www.nlm.nih.gov/mesh/meshhome.html>), koji obuhvata preko 24.500 odrednica uređenih hijerarhijski na devet nivoa.

Časopisi iz Srbije indeksirani u MEDLINE-u

Upravljanje rezultatima pretrage – Add to folder

The screenshot shows the EBSCOhost search interface. At the top, there is a navigation bar with links for 'New Search', 'MeSH 2018', 'Publications', and 'Indexes'. On the right side of the bar are 'Sign In', 'Folder', 'Preferences', 'Languages', 'Help', and 'Exit'. The main search area includes the EBSCOhost logo, a search box containing the query 'heart attack and stress', and a 'Search' button. Below the search box are options for 'Basic Search', 'Advanced Search', and 'Search History'. A 'Refine Results' sidebar on the left contains sections for 'Current Search', 'SmartText Searching', 'Limit To', and 'Source Types'. The search results are displayed in a list format, with the first three results visible. A 'Share' dropdown menu is open on the right side of the results, showing options to 'Add to folder', 'Create an alert', and 'Use Permalink'. An orange arrow points from the 'Add to folder' option in the dropdown to a 'Share' dropdown in the right-hand sidebar. Another orange arrow points from the 'Add to folder' option to a folder icon in the sidebar. A third orange arrow points from the 'Add to folder' option to a folder icon in the sidebar.

Alert

Korišćenje Alert opcije

Izdavači naučnih baza podataka pružaju registrovanom korisniku mogućnost korišćenja *Alert* servisa. Ta opcija Vam omogućava da sačuvate korišćene upite kako biste ih kasnije ponovo izvršavali. Osim toga, možete ih koristiti kao zahtev za periodično slanje izveštaja o novodotatim člancima koji odgovaraju tim upitima.

Da biste koristili ovu pogodnost neophodno je da korisnik otvori svoj lični nalog (registruje se) na svakom servisu pojedinačno. Te registracije su besplatne i međusobno nezavisne i nemaju nikakve veze sa KoBSON nalogom.

Postoji nekoliko tipova Alerts obaveštenja:

1. *Search Alerts* – obaveštenja vezana za pretrage. Ako korisnik odluči da sačuva određenu formu i sadržinu pretrage (npr. konkretnu konfiguraciju ključnih reči i imena autora po kojima je pretraživao bazu, slika ispod), ima mogućnost da putem Alerts aplikacije konfiguraciju konkretne pretrage sačuva, a da mu servis automatski šalje obaveštenje na e-mail adresu kada god se u bazi pojavi neki novi članak koji odgovara kriterijumima pretrage.
2. *Volume/Issue Alerts* – obaveštenja vezana za nove brojeve i sveske časopisa. Korisnik može da izabere časopise za koje želi da dobija obaveštenja kada god izađe nova sveska časopisa, naravno pod uslovom da se taj časopis referiše u bazi.
3. *Citation Alerts* – obaveštenja vezana za citiranje izabranih članaka. Korisnik može da traži da mu se za određene članke šalju obaveštenja kada god se u bazi pojavi neki novi rad koji citira izabrani članak.

RSS

Šta je RSS?

RSS (Really Simple Syndication) predstavlja aplikaciju za automatsko preuzimanje podataka sa internet sajtova. Uz pomoć RSS aplikacija moguće je pratiti promene na web lokaciji od interesa bez posećivanja samog sajta. RSS automatski preuzima podatke o promenama na sajtu i obaveštava korisnika o njima. Ako se na sajtu pojavi neka nova vest, tekst ili neki drugi sadržaj, korisnik dobija informaciju o tome.

Postoje dva preduslova da bi RSS funkcionisao:

1. Da web sajt ima RSS aplikaciju, tj. da je moguće preuzimati informacije na ovaj način sa njega.
2. Da korisnik ima aplikacije za čitanje RSS-a, kao i da određenu web lokaciju unese u listu sajtova za RSS informacije.

Ove aplikacije se mogu besplatno preuzeti sa Interneta.

Za istraživača koji želi da prati određene naučne časopise u elektronskoj formi (npr. preko KoBSON-a), RSS predstavlja odlično rešenje, jer se sve promene, tj. pojavljivanje novog broja i novih tekstova, automatski detektuju i informacija stiže direktno korisniku, štedeći na taj način njegovo vreme.
