These databases are integrated into ScienceDirect platform and allow researchers to navigate through abstracts to full-text articles on both ScienceDirect and other publisher platforms.

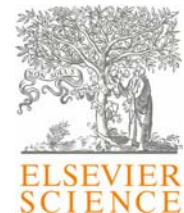

Content: Reference Works

- The 11-volume **Comprehensive Clinical Psychology** can be browsed or searched electronically if you have a subscription to the print version. **CCP on-line** includes: 267 chapters, 7000 pages, 28000 references and 37000 subject index items.

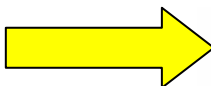

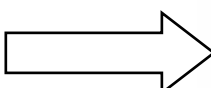

- The **International Encyclopedia of Social and Behavioural Sciences** is the largest reference work ever published for the social and behavioral sciences and the first to appear in both print and electronic formats. Includes 90,000 bibliographic references.

ScienceDirect for the KOBSON Consortium

- **Via Portfolio Management (PFM) until 1 July 2003 access to full text articles of 1,294 Elsevier journals**
 - Access as of **1998**
 - Titles listed with a green icon are subscribed journals, I.e. full text access
 - PFM journals are listed with a yellow icon, I.e. full text access
 - Titles listed in white, NO full text access but abstracts only

Propellanes—XIV

The thermal behaviour of a bicyclo[4.2.2]deca-2,4,7,9-tetraene ether derivative and its reaction with ironpentacarbonyl

J. Altman and D. Ginsburg

Department of Chemistry, Technion-Israel Institute of Technology, Haifa Israel

Received 20 July 1970; accepted 13 August 1970. Available online 2 March 2001.

Abstract

The thermal behavior of the prebullvalene ether **1** and its reaction with ironpentacarbonyl has been studied. The structures of the various reaction products are elucidated.

Warmeh-Ziaie, Shohreh, Ichimura, Koichi, Yang, Fengtang, Rabbits, Pamela and Collins, V. Peter

[SummaryPlus](#) | [Full Text + Links](#) | [PDF \(202 K\)](#)

In this report, we describe the cloning of the coding region of human WIG-1 cDNA. The human 8 and 6 kb WIG-1 transcripts are both upregulated following ionizing irradiation of the human colon cancer cell lines HCT116 and LoVo which have wild type TP53 but not in DLD1 cells that lack wild type TP53. Basal levels of both WIG-1 transcripts were detected in human adult brain, kidney, and testis, but...

- ERBB2 status and benefit from adjuvant tamoxifen in ER[alpha]-positive postmenopausal breast carcinoma**, Pages 173-178

Bieche, I., Onody, P., Lerebours, F., Tozlu, S., Hacene, K., Andrieu, C., Vidaud, M., Tubiana-Hulin, M., Spyrtos, F. and Lidereau, R.

[SummaryPlus](#) | [Full Text + Links](#) | [PDF \(196 K\)](#)

We examined the relation between ERBB2 gene expression (as determined by a real-time quantitative RT-PCR assay) and the response to adjuvant tamoxifen therapy in a well-defined cohort of 125 ER[alpha]-positive postmenopausal patients with breast cancer. Although ERBB2 overexpression was associated with shorter relapse-free survival in univariate analysis (P=0.00029), ERBB2 did not persist as an...

- PTEN gene mutations in colorectal cancers displaying microsatellite instability**, Pages 189-194
Shin, Ki-Hyuk, Park, Young Jin and Park, Jae-Gahb
[SummaryPlus](#) | [Full Text + Links](#) | [PDF \(218 K\)](#)

To determine the relationship between the mutation of the PTEN gene and genomic instability in human colorectal cancer, we screened the PTEN gene in 32 colorectal cancers (eight cell lines and 24 tissues) displaying microsatellite instability (MSI) and 32 colorectal cancers (six cell lines and 26 tissues) displaying microsatellite stability (MSS). Of 64 samples, six frameshift mutations were identified in six MSI colorectal cancers (two cell lines and four tumor tissues) but not in MSS colorectal cancers. Of the six MSI colorectal cancers containing PTEN mutation, two case (one cell line and one tumor tissue) showed biallelic mutation of PTEN. Furthermore, to compare the frequency of PTEN mutation with that of other MSI target genes, the mononucleotide repeat sequences of TGF- β RII, BAX, IGF1R, hMSH6 and hMSH3 were analyzed. The frequencies of frameshift mutation were revealed 78% in TGF- β RII, 56% in BAX, 46.9% in hMSH3, 37.5% in hMSH6, 21.9% in IGF1R, and 18.8% in PTEN. These results suggest that the PTEN gene is a target of genomic instability in MSI colorectal tumorigenesis.

- Cloning and chromosomal localization of human WIG-1/PAG608 and demonstration of amplification with increased expression in primary squamous cell carcinoma of the lung**, Pages 179-187
Varmeh-Ziaie, Shohreh, Ichimura, Koichi, Yang, Fenetang, Rabbits, Pamela and Collins, V. Peter
[SummaryPlus](#) | [Full Text + Links](#) | [PDF \(202 K\)](#)

In this report, we describe the cloning of the coding region of human WIG-1 cDNA. The human 8 and 6 kb WIG-1 transcripts are both upregulated following ionizing irradiation of the human colon cancer cell lines HCT116 and LoVo which have wild type TP53 but not in DLD1 cells that lack wild type TP53. Basal levels of both WIG-1 transcripts were detected in human adult brain, kidney, and testis, but not in fetal brain, heart, pancreas, adrenal gland, fetal liver, and small intestine. FISH analysis mapped the human WIG-1 gene to 3q26.3. Investigation of squamous cell carcinomas of the lung by Southern blot and semiquantitative RT-PCR analysis showed amplification in combination with increased expression of WIG-1 in 1/7 tumors and increased expression in a further two cases.

- ERBB2 status and benefit from adjuvant tamoxifen in ER[alpha]-positive postmenopausal breast carcinoma**, Pages 173-178
Bieche, I., Onody, P., Lerebours, F., Tozlu, S., Hacene, K., Andrieu, C., Vidaud, M., Tubiana-Hulin, M., Spyrtatos, F. and Lidereau, R.

What is Scirus?

- Free web search engine
- Only looks at scientific information
- Offers unique search functionalities
- Finds peer-reviewed articles as well as web pages
- Winner of the Search Engine Watch Award 2001 & 2002

SCIRUS
www.scirus.com

Content Coverage

Scirus now covers > 138 million pages:

- Scientific Web Sources
 - 120 million freely accessible Web pages
- Scientific journal and preprint sources:
 - 18 million article records

Value added functionalities

- Journal and / or Web source selection
- Individual sources selection like: USPTO, ScienceDirect
- Information Types like: conference, article, patent
- Subject areas
- Refine your search
- Sort by date / sort by relevance
- Email selected results
- Intelligent query analysis

Internal / External Linking

- **Internal linking:** within ScienceDirect platform
- **External linking:** between platforms
 - **CROSSREF - WWW.CROSSREF.ORG**
 - **THE central source for reference linking**
 - Publishers create article links by registering their articles (via DOI) at CrossRef
 - Provides links to articles independent of location of articles
 - Link brings customer always to ABSTRACT level
 - Depending on entitlements, immediate access to FULL TEXT ARTICLE

CrossRef is the citation linking backbone -- a collaborative reference linking service that allows the user to click on a citation and be taken directly to the target content. Online publishing is raising the bar for resource discovery. The scientific and scholarly community now demands navigational ease at the desktop. More than ever, publishers, librarians, and information aggregators are expected to provide seamless integration of current and archived content across publishers. [KEEP READING...](#)

Account Development

OBJECTIVES of Account Development:

- To facilitate successful implementation and optimal use of ScienceDirect at your institution by providing training, promotional tools, support, and usage reports
- To ensure we meet your needs by obtaining feedback from you and your users

Account Development

- Expert assistance to help you, the librarian, optimize the usage of ScienceDirect
- Trainings, Workshops, Events
- Support Websites
 - <http://www.info.sciencedirect.com>
 - <http://support.sciencedirect.com>
- SD Connect Newsletter
 - <http://www.info.sciencedirect.com/news/sdconnect>
- Usage Reports
 - <http://usagereports.t.com>

Library Customisation - Library Banner/Logo

The screenshot displays the AICHE Journal website interface. At the top, there is a navigation menu with buttons for Home, Search, Journals, Abstract Databases, Reference Works, My Alerts, My Profile, and Help. Below the menu is a search bar with a 'Quick Search' field, a 'within' dropdown menu set to 'This Issue', and a 'Go' button. To the right of the search bar, it says 'Brought to you by: WRIGHT STATE UNIVERSITY' with a link to 'issue list'. The main content area features the 'AICHE Journal' title in purple, followed by the copyright notice 'Copyright © 2002 by the American Institute of Chemical Engineers'. Below this, it specifies 'Volume 48, Issue 9, Pages 1842-2112 (September 2002)'. There are two green horizontal bars, each containing links for 'E-mail Articles' and 'Export Citations'. The first bar is followed by a message: 'checked docs: display checked docs' and 'No Articles Currently Available'. The second bar is followed by the same 'E-mail Articles' and 'Export Citations' links. At the bottom of the page, there is a footer with the text 'Send feedback to ScienceDirect', 'Software and compilation © 2002 ScienceDirect. All rights reserved.', and 'ScienceDirect® is an Elsevier Science B.V. registered trademark.' To the right of the footer is the Wright State University logo, which is a green square with a white building icon and the text 'WRIGHT STATE UNIVERSITY'. A red arrow points from the 'WRIGHT STATE UNIVERSITY' link in the top right corner to an orange box. Another red arrow points from the orange box to the Wright State University logo at the bottom.
