## 2001. Budapest Open Access Initiative (BOAI)

- Покрет за отворени приступ **Open access (OA)**

**Отворени приступ подразумева да сваки корисник који има приступ интернету било где у свету има право да чита, преузима, чува, штампа и користи дигитални садржај радова објављених у отвореном приступу, са једином обавезом да их коректно цитира.**

# Шта није отворени приступ

- Самопубликовање
- Избегавање рецензије
- Литература “ниже вредности”

# Видови отвореног приступа

- **Зелени (GREEN)** – самоархивирање и изградња мреже институционалних или дисциплинарних репозиторијума (радови као препринт или постпринт)
- **Златни (GOLD)** – објављивање радова у часописима који су у отвореном приступу, у потпуности или делимично – тзв. хибридни часописи

# Часописи у ОП

- Часописи у отвореном приступу – рецензирани – без плаћања претплате или лиценце
- Неки наплаћују публикување од аутора (пројекти или институције, фондације које финансирају пројекте)
- Многи имају ИФ и индексирају се у цитатним индексима.

# Комерцијални издавачи и отворени приступ

- издавачи дозвољавају да аутори препринте прихваћене за објављивање у њиховим часописима поставе у дигиталне репозиторијуме својих институција (CERN, Harvard University, MIT, Berkeley, Max Planck Institute) или међународне тематске репозиторијуме
- Политика појединих издавача у погледу преношења ауторских права **Sherpa/Romeo** (*Securing a Hybrid Environment for Reserach Preservation and Access*)

## Copyright Transfer Statement

The copyright to this article is transferred to Springer (respective to owner if other than Springer and for U.S. government employees: to the extent transferable) effective if and when the article is accepted for publication. **The author warrants that his/her contribution is original and that he/she has full power to make this grant.** The author signs for and accepts responsibility for releasing this material on behalf of any and all co-authors. **The copyright transfer covers the exclusive right to reproduce and distribute the article, including reprints, translations, photographic reproductions, microform, electronic form (offline, online) or any other reproductions of similar nature.**

**An author may self-archive an author-created version of his/her article on his/her own website and his/her institution's repository, including his/her final version; however he/she may not use the publisher's PDF version which is posted on [www.springerlink.com](http://www.springerlink.com).**

Furthermore, the author may only post his/her version provided acknowledgement is given to the original source of publication and a link is inserted to the published article on Springer's website. The link must be accompanied by the following text: "The original publication is available at [www.springerlink.com](http://www.springerlink.com)".

Please use the appropriate DOI for the article (go to the Linking Options in the article, then to OpenURL and use the link with the DOI). Articles disseminated via [www.springerlink.com](http://www.springerlink.com) are indexed, abstracted, and referenced by many abstracting and information services, bibliographic networks, subscription agencies, library networks, and consortia.

After submission of this agreement signed by the corresponding author, changes of authorship or in the order of the authors listed will not be accepted by Springer.

## Directory of Open Access Journals (DOAJ)

DOAJ is an online directory that indexes and provides access to quality open access, peer-reviewed journals.

There is a new process to have journals indexed in the DOAJ. All journals must apply using our new [Application Form](#). Due to the extensive and detailed information we require, only a journal's publisher should complete the form.

### [The new DOAJ flyer: a fresh design and updated information](#)

We have just completed our new flyer. It's had a complete overhaul and has a fresh clean design. We are asked often by our users if we have any promotional materials for special events or for display in the libraries at point of use. For the first time, we now have a high-res print version [...] [Read More...](#)

### ["The Tick" is now live!](#)

Now it's easier to see which journals were accepted into the DOAJ under our new criteria, in other words, after March 2014. I posted a piece earlier this year where I explained that all journals accepted into DOAJ after that date would be marked with a green tick. We have now completed that work and [...] [Read More...](#)

Some journal web sites state that the journal is in DOAJ when it is not. Often, the home page carries the DOAJ logo along with logos from other indexing services. ## The Directory of Open Access Repositories - OpenDOAR

[Search for repositories](#) | [Search repository contents](#) | [List of repositories](#) | [Repository Statistics](#)

OpenDOAR is an authoritative directory of academic open access repositories. Each OpenDOAR repository has been visited by project staff to check the information that is recorded here. This in-depth approach does not rely on automated analysis and gives a [quality-controlled](#) list of repositories.

As well as providing a simple [repository list](#), OpenDOAR lets you [search for repositories](#) or [search repository contents](#). Additionally, we provide tools and support to both repository administrators and service providers in sharing best practice and improving the quality of the repository infrastructure. Further explanation of these features is given in a project document [Beyond the list](#).

The current directory lists repositories and allows breakdown and selection by a variety of criteria - see the [Find](#) page - which can also be viewed as [statistical charts](#). The underlying database has been designed from the ground up to include in-depth information on each repository that can be used for search, analysis, or underpinning services like text-mining. The OpenDOAR service is being developed incrementally, developing the current service as new features are introduced. A list of [Upgrades and Additions](#) is available.

Developments will be of use both to users wishing to find original research papers and for service providers like search engines or alert services which need easy-to-use tools for developing tailored search services to suit specific user communities.

OpenDOAR is one of the SHERPA Services including [RoMEO](#) and [JULIET](#), run by the [Centre for Research Communications](#) (CRC). Current development work is [currently funded](#) by [JISC](#), with contributions from the CRC host organisation, the [University of Nottingham](#).

OpenDOAR has also been identified as a key resource for the Open Access community ([K.B.Oliver & R.Swain, 2006](#) - PDF) and identified as [the leader in repository directories](#) in a study by [Johns Hopkins University](#). OpenDOAR was one of the services which contributed to [SHERPA](#) being awarded the [2007 SPARC Europe Award for Outstanding Achievements in Scholarly Communications](#).

More information on the project is available on this site through the [About](#) page.

## Welcome to the Registry of Open Access Repositories

### Notice:

We had a major storage controller failure, which led to the harvesting service failing. We are in the process of recovering data and restarting the harvesting. This failure only affects the tracking of content growth. New repositories should continue to be registered as they are all being fully processed as previously.

We are doing everything we can to bring the service back to normal and we apologise for the interruption to the service.

The aim of ROAR is to promote the development of open access by providing timely information about the growth and status of repositories throughout the world. Open access to research maximises research access and thereby also research impact, making research more productive and effective. [More information...](#)
