12:00 – 14:00

Venue:

Vinča Institute of Nuclear Sciences, 11001 Belgrade, Serbia, for 03

Presenter:

Eszter Lukacs, IEEE Client Service Manager

For more information please contact info.cr@ebsco.com

The session will be held in English language

Dear IEEE users,

We are pleased to invite you to a training session organized in cooperation of National Library of Serbia, IEEE and EBSCO Information Services.

The presentation will touch upon the entire writing process of an academic publication and address the questions that arise in the mind of students and researchers during the process of writing. The session is aimed at researchers and PhD students who are working on research projects and seek recognition of their research through IEEE publications.

The talks will provide an insight into the following topics:

- IEEE, overview of content
- Overview of the structure of a scientific article, and methods for improving the writing skills,
- Choosing where to communicate – a conference or a journal? How to decide?
- A review of the editorial process will follow – the “do’s” and “don’ts” during the submission and revision process.
- Possibilities of Open Access publishing with IEEE, OA journals of IEEE Xplore, OA policies
