## OBJECTIVES

## ACHIEVEMENTS

To fill existing University open access (OA) repositories with PhD theses

Pretraži

A national OA portal of PhD theses and dissertations was launched and includes 1,013 OA PhD theses easily citable and searchable (with DOIs)

Serbian theses are searchable on DART Europe, OpenDOAR and OATD

Social network thumbnails have been added to each thesis so the altmetrics can be tracked – that cover not just citation counts, but also other aspects of the impact of a work, such theses views, downloads, or mentions in social media and news media

To disseminate Serbian theses to much larger audience

A new Law on Amendments and Additions to the Law on Higher Education was adopted on September, 10th 2014 that requires making PhD theses available. The Ministry of Education and Science is responsible for a national OA theses repository

This project was supported by a grant from EIFL-OA (June 2013).
