

Naučne informacije na KoBSON-u - dostupnost i načini pristupa

Tatjana Timotijević
Narodna biblioteka Srbije
<http://www.kobson.nb.rs>

Petnica, februar 2016.

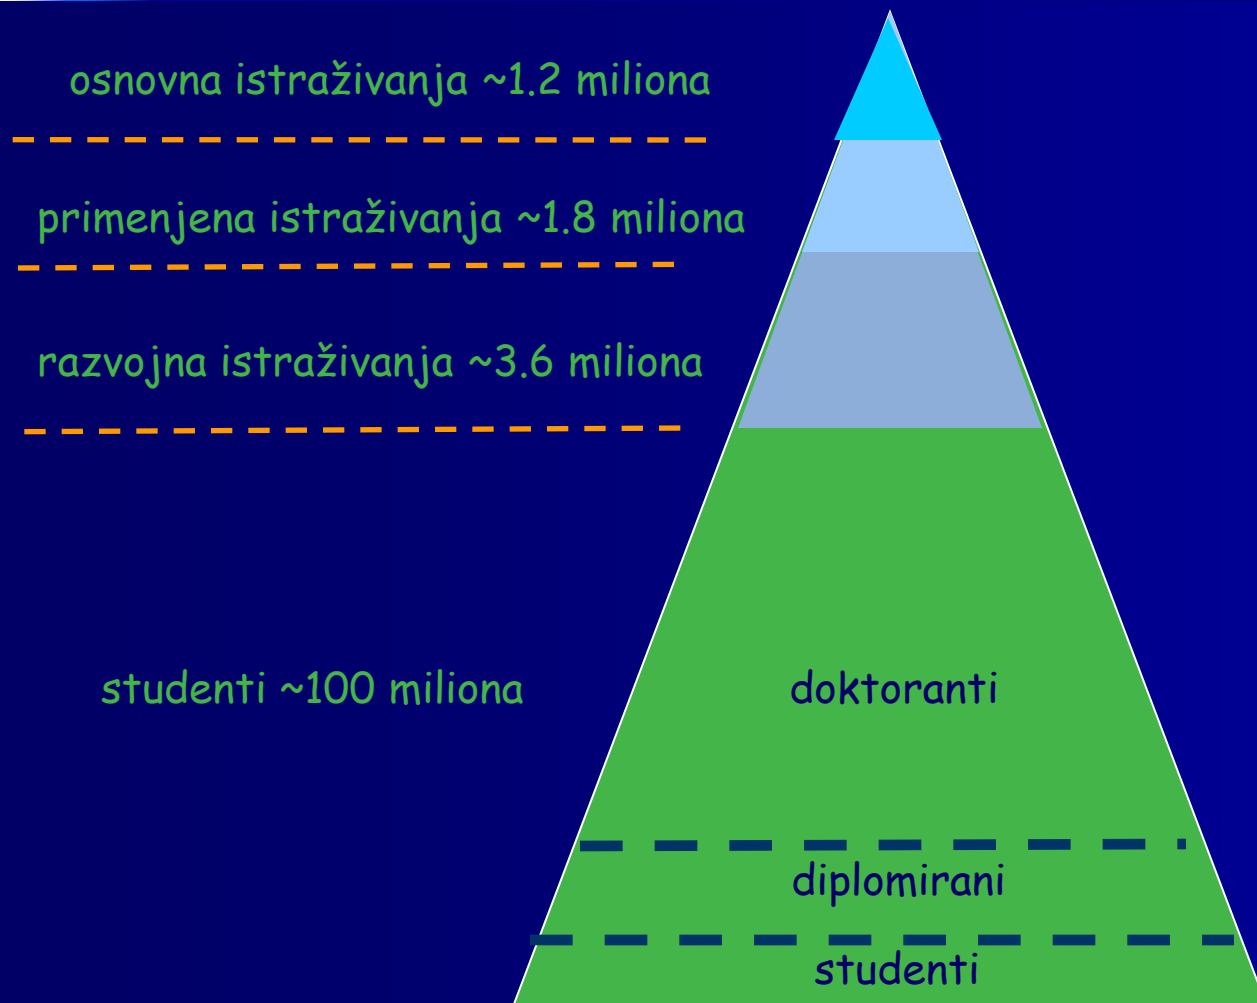

Teme

- Kriza sistema naučnih komunikacija
- Promene u:
 - pristupu informacijama
 - našim bibliotekama
- Šta je KoBSON i čime se bavi?
- Šta je dostupno u Srbiji
- Pretraživanje časopisa po naslovu, naučnoj disciplini i po temi (ključnim rečima)
- Upravljanje rezultatima pretrage
- Citatne baze i vrednovanje
- Kako pristupiti servisima

Kada (i kome) su potrebne naučne informacije

- ✓ u svim fazama istraživanja:
 - ✓ šta je ko pisao na tu temu ranije
 - ✓ koje se metode koriste
 - ✓ interpretacija rezultata
 - ✓ pisanje radova
- ✓ prilikom "velikih" odluka
 - ✓ odlukama o obrazovanju ili zaposlenju
 - ✓ koji univerzitet odabratи prema temi
 - ✓ odabir mentora
 - ✓ odabir radnog okruženja

Ko su korisnici naučnih informacija

Šta su naučne informacije

Komunikacije u nauci su proces u kojem se pisani izveštaj o istraživanju i rezultatima stvaraju, vrednuju, izdaju, formatiraju, distribuiraju, organizuju, čine dostupnim, čuvaju, koriste i transformišu.

Sistem uključuje:

- ☞ tri učesnika (istraživači, izdavači, bibliotekari)
- ☞ šest njihovih funkcija

Tri učesnika i ...

Učesnici u procesu naučne komunikacije i njihove želje:

- istraživači : žele da sa svojim rezultatima upoznaju što više ljudi
- biblioteke : obazbediti što širu dostupnost
- izdavači : povećanje profita na naučnim publikacijama

... šest funkcija:

- stvaranje : potpuno u domenu istraživača i bez njih ne postoji
- kontrola kvaliteta : deo izdavačkog procesa, ali je takođe vrše istraživači (recenzija)
- produkcija : izdavači, opremaju publikaciju i vode postupak recenzije
- distribucija naučnih rezultata : biblioteke i izdavači
- korišćenje : istraživači, ali se proteže i na studente i druge zainteresovane korisnike

Kriza sistema naučnih komunikacija

- broj naslova časopisa je dupliran, a nabavka smanjena za 6%
- cene časopisa rastu po stopi od 9% godišnje
- biblioteke nisu u mogućnosti da pretplate sve potrebno
- veliki porast cena časopisa iz oblasti prirodnih nauka, medicine i tehnike (STM), čak 11% godišnje (prosečna cena visoko kvalitetnih časopisa oko 10000 \$)
- prosečna profitna stopa u izdavaštvu 5%, a u izdavaštvu naučnih informacija čak i do 40%

Dva (pokušaja) rešenja

- prelazak na elektronski oblik
- biblioteke koordiniraju nabavku sa srodnim bibliotekama i formiraju konzorcijume

Prednosti elektronske forme

- pristup do publikacija brži i jeftiniji
- pristup nije vezan za vreme i mesto
- moguće je korišćenje multimedijalnih sadržaja
- biblioteke mogu da pruže na korišćenje svoje resurse neograničenom broju korisnika

e-forma - menja kod svih

Današnji korisnik biblioteke očekuje

- ✓ jednostavan i brz pristup informacijama
- ✓ digitalizovanu biblioteku i optimalno korišćenje elektronskih medija
- ✓ propusnu/brzu računarsku mrežu
- ✓ jasan portal s korisnim grananjem

Korisnik očekuje

- ✓ da je sve na, najviše, tri klik
- ✓ da je nezavisan od vremena
- ✓ da je nezavisan od mesta
- ✓ da je nezavisan od opreme (m-Library)

Šta se "već" promenilo

zajednički nastup biblioteka
(tako smo jači)

elektronska forma časopisa
(svi dobijamo više)

pružanje tehnologije

dobra informisanost
(Web, prezentacije, radionice)

evaluacija efikasnosti sistema

Šta je KoBSON?

Konzorcijum biblioteka Srbije za objedinjenu nabavku

Osnovni cilj:

- optimizovana nabavka stranih naučnih informacija
- prelazak sa papirnih izdanja na elektronska
- unapređenje pristupa elektronskim informacijama
- promocija domaćeg naučnog izdavaštva

Naš konzorcijum - KoBSON

Electronic Information for Libraries

- 50 zemalja
- 3500 biblioteka

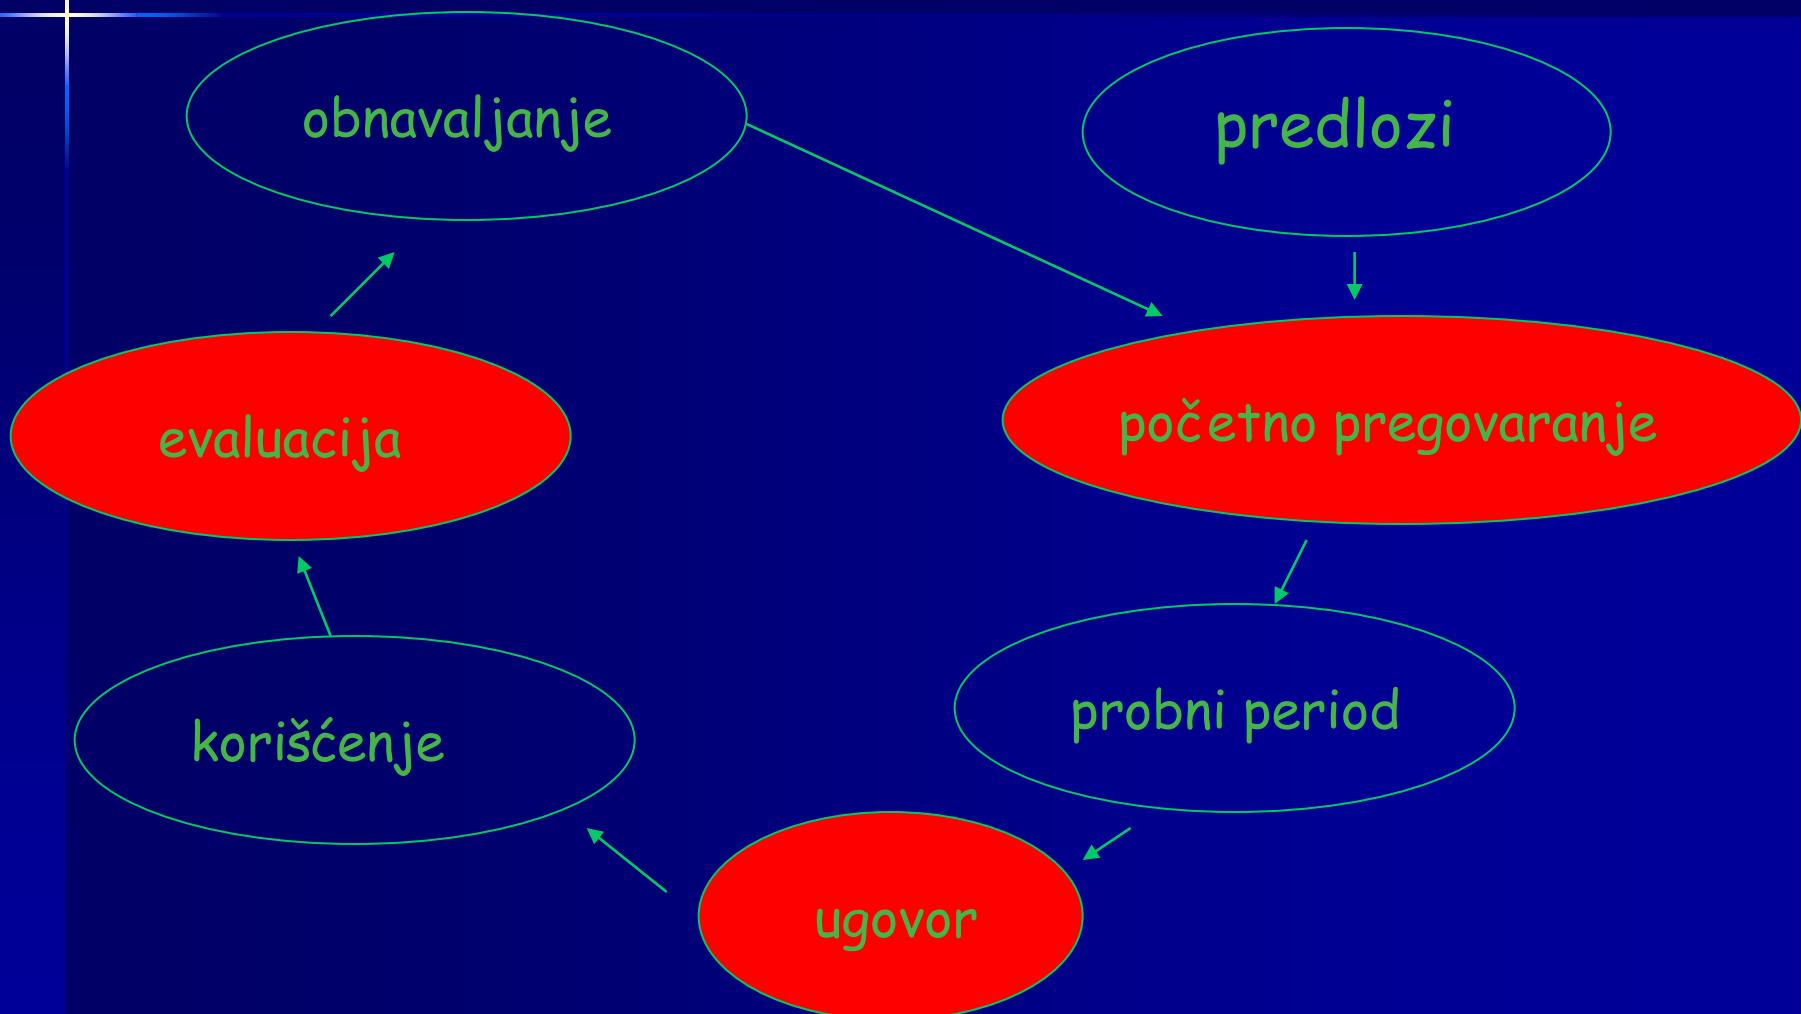

Konzorcijum biblioteka Srbije za objedinjenu nabavku

- 6 najvećih
- 131 naučnoistraživačkih

Čime se sve bavimo?

- ispitujemo potrebe
- pregovaramo sa izdavačima
- pišemo predloge nabavki
- borimo se za budžet
- osmišljavamo veb stranicu
- održavamo Naši u WoS
- otvaramo naloge za udaljeni pristup
- održavamo DoiSerbia
- odgovaramo na e-mailove i komentare

Kako biramo

Ko su naši korisnici?

- istraživači i studenti (državnih univerziteta/instituta)
- doktoranti (podgrupa u koju više ulazemo)
- nastavnici privatnih univerziteta
 - nisu uključeni (bar ne za sada)
 - isključuju se po prelasku

KoBSON se koristi za:

- ✓ pretraživanje časopisa (i knjiga)
- ✓ uvid u podatke namenjene vrednovanju
- ✓ promociju naučnog publikovanja u Srbiji
- ✓ novine u naučnom izdavaštvu

IP: 192.168.4.115, NBS

za Mlade istraživače

+ -

2011. godina

Krajem maja i početkom juna 2011. godine biće održan **jednodnevni** edukativni seminar o korišćenju KoBSON servisa namenjen ovogodišnjim stipendistima Ministarstva nauke. Termini su:

Beograd **26. i 27. maj i 3. i 6. juni**, Narodna biblioteka Srbije, Elektronska učionica, Skerlićeva 1, Beograd
(od 10.00 do 17.00 h)

Neophodno je da svaki pozvani stipendista **potvrdi** svoje učešće e-mail-om na kobson@nb.rs (Subject: Prijava za edukaciju stipendista u 2011. god.). U e-mail-u **obavezno navesti dva najprihvatljivija termina** za pohađanje seminara (zbog ograničenog broja mesta u elektronskoj učionici). Stipendisti koji se prijave biće obavešteni o konačnom rasporedu pohađanja edukacije putem e-mail-a.

Poželjno je pročitati tekst za kurs, **članak (PDF na srpskom 1.92 MB)**

Na sajtu **PhD Comics** mogu se naći duhovite situacije u kojima se nalazi svaki student doktorant. Pogledajte u trenucima odmora (ako ih ima), i sigurno će Vas ohrabriti da nastavite dalje.

Postoji odličan **flajer** za pridruživanje i podršku Open Access-u, kao i stranica na kojoj možete pronaći **10 načina** za pomoć i unapređenje publikovanja u Open Access režimu.

Edukacija stipendista Ministarstva nauke

U toku 2008. godine počeo je sa radom poseban program namenjen mladim istraživačima koji je obuhvatio doktorante - stipendiste Ministarstva nauke i tehnološkog razvoja Republike Srbije. Cilj programa je da se mladi istraživači, na početku svoje naučne karijere, obuče za korišćenje svih servisa KoBSON-a, kao i da se upoznaju sa osnovnim pojmovima vezanim za naučno publikovanje i vrednovanje.

Servisi

U 2016. godini, iz akademskih institucija u Srbiji, dostupno je preko 35.000 naslova stranih naučnih časopisa u punom tekstu, blizu 160.000 naslova knjiga, kao i nekoliko indeksnih baza podataka. Pretraživanje na KoBSON portalu moguće je obaviti samo prema naslovu časopisa ili knjige. Većina časopisa je u punom tekstu dostupna od 1997. godine, dok su ranija godišta dostupna do nivoa abstrakta. Za predmetna pretraživanja po člancima upućujemo Vas ili na nekog od aggregatora, ili direktno na sajt izdavača.

Pretraživanje časopisa: Spisak svih časopisa koji su na neki način dostupni u bibliotekama Srbije (bilo elektronski, bilo u papirnoj formi), proširena naslovima časopisa koji su imali Impakt Faktor u poslednjih dvadeset godina. Prisustvo časopisa na toj listi je samo pokazatelj njegove dostupnosti, a nikako kvaliteta.

Elektronski časopisi: Skup preplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

Pretraživanje časopisa po naslovu

The screenshot shows the SciVerse ScienceDirect homepage. At the top, there are links for Hub, ScienceDirect, Scopus, and Applications. On the right, there are buttons for Register, Log in, and Go to SciVerse. A purple oval highlights a message in the top right corner: "Brought to you by: KoBSON - Konzorcijum biblioteka Srbije objedinjenu nabavku". Below the header, there's a search bar with fields for Articles, Images, All fields, Author, Volume, Issue, and Page, followed by a "Search" button. To the left of the search bar are buttons for Home, Publications, Search, My settings, My alerts, and Shopping cart. Help and Advanced search links are also present. Below the search bar, there are three boxes: one for "Related Science and Research jobs" with a mail icon, one for "Looking for a job? Connect with the most prestigious organizations", and one for "Looking for World Class Researchers? Post your job on ScienceDirect". A green "more jobs" button is on the far right.

The screenshot shows the "Library & Information Science Research" journal page. On the left, there's a thumbnail of the journal cover. The title "Library & Information Science Research" is displayed. Below the cover, there are links for "Sample Issue Online", "About this Journal", "Submit your Article", and "Shortcut link to this Title". There are also buttons for "New Article Feed" (RSS icon), "Alert me about new articles" (bell icon), and "Add to Favorites" (heart icon). At the bottom, there are links for "< Previous vol/iss" and "Next vol/iss >". On the right, there's a "Font Size" dropdown and a "Add to my QuickList" button.

The screenshot shows the details of an article from "Volume 34, Issue 4, Pages 247-332 (October 2012)". The article title is "An alarming trend" by Peter Hernon, Candy Schwartz. At the top, there are links for Purchase, E-mail articles, Export citations, PDF downloader, and Open all previews. A purple oval highlights the "PDF (37 K)" link. On the left, there's a sidebar with icons for Full-text available, Abstract only, and Articles in Press (which is circled in purple). Below the sidebar, there's a list of previous volumes and issues. On the right, there's a "Create Your Own Booklet at Elsevier's WebShop" button.

Highlights

► We study the concentration in both scientific research and technological innovation. ► Both papers and patents are geographically concentrated on a few countries. ► China has significant progress in paper production and citation impact. ► Taiwan and Korea have a rapid growth of patents over the past years. ► We find a reduction of the predominant role of the U.S. in research and technology.

Research performance
Citation network
Bibliometric indicators
Hirsch index

ABSTRACT

We propose two new indices that are able to measure a scientific researcher's overall influence and the level of his/her works' association with the mainstream research subjects within a scientific field. These two new measures – the total influence index and the mainstream index – differ from traditional performance measures such as the simple citation count and the *h*-index in that they take into account the indirect influence of an author's work. Indirect influence describes a scientific publication's impact upon subsequent works that do not reference it directly. The two measures capture indirect influence information from the knowledge emanating paths embedded in the citation network of a target scientific field. We take the Hirsch index, data envelopment analysis, and lithium iron phosphate battery technology field to examine the characteristics of these two measures. The results show that the total influence index favors earlier researchers and successfully highlights those researchers who have made crucial contributions to the target scientific field. The mainstream index, in addition to underlining total influence, also spotlights active researchers who enter into a scientific field in a later development stage. In summary, these two new

U 2009. godini, iz akademskih institucija u Srbiji, dostupno je preko 35.000 naslova stranih naučnih časopisa u punom tekstu, oko 40.000 naslova knjiga, kao i nekoliko indeksnih baza podataka.

Pretraživanje na KoBSON portalu moguće je obaviti samo prema naslovu časopisa ili knjige. Većina časopisa je u punom tekstu je dostupna od 1997. godine, dok su ranija godišta dostupna do nivoa abstrakta.

Za predmetna pretraživanja po člancima upućujemo Vas ili na nekog od aggregatatora, ili direktno na sajt izdavača.

Pretraživanje časopisa:

Spisak svih časopisa koji su na neki način dostupni u bibliotekama Srbije (bilo elektronski, bilo u papirnoj formi), proširena naslovima časopisa koji su imali Impakt Faktor u poslednjih dvadeset godina. Prisustvo časopisa na toj listi je samo pokazatelj njegove dostupnosti, a nikako kvalitetu.

Elektronski časopisi:

Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

The screenshot shows the KobSON library search interface. At the top, there are links for 'Tražite', 'Udaljeni pristup', 'Mapa sajta', and 'Odjava'. On the left, there's a sidebar with 'CPT' and 'SRL' buttons, followed by sections for 'INFORMACIJE' (containing links like 'Moj IP broj', 'Zaboravljena lozinka', etc.), 'NAUKA U SRBIJI', 'SERVISI', 'MOŽDA VAM ZATREBA', and 'SUGESTIJE I ZAMERKE'. A logo for 'Ministarstvo prosvete, nauke i tehnološkog razvoja' is also present. The main content area shows search results for 'EBSCO'. It includes a 'Brzi linkovi' section with a 'Publication Finder' tool from EBSCO Discovery Service, a table of publishers (with 'SAGE' circled in red), and a table of aggregators. The right sidebar contains sections for 'NOVI KORISNICI', 'KAKO KORISTITI KobSON', 'ČESTA PITANJA O', 'SKRACENICE NA KobSONU', and 'Email'.

Servisi po disciplinama

35 000 časopisa, 20 servisa

- ❖ Biomedicinske nauke SD, PQ, EB, SP, HI, HW, WI, OX, CU, OV
- ❖ Klinička medicina EB, SD, SP, HI, HW, WI, OV
- ❖ Prirodne nauke SD, PQ, EB, SP, CU
- ❖ Poljoprivreda, Šumarstvo i Zaštita životne sredine SD, SP
- ❖ Tehničke nauke, Računarstvo IE, SD, EM, EV, CU
- ❖ Društvene nauke JS, EM, EB, SD, SG, OX, CU
- ❖ Umetnost i humanističke nauke JS, EB, OX
- ❖ Fizika IE, SD, AP, SP, IO
- ❖ Hemija AC, SD, RSC
- ❖ Pravne nauke HE
- ❖ Sve naučne discipline SD, EB, PQ, CU

Agregatori i izdavači

Dostupni izdavači:

AC, AP, CU, EM, IE, IOP, OX, SG, SD, SP, WI,
ASME, RSC

(puni tekstovi članaka često dostupni el. pre
njihovog štampanja u papirnoj formi)

Dostupni agregatori:

EB, FM, HE, HW, HI, JS, PQ, TE, OV

(baze koje sadrže časopise više izdavača, često
sadrže "embargo" period 3, 6 ili 12 meseci)

Abstraktno-citatne baze:

WoS, SCOPUS

(referišu veliki broj naslova časopisa, pogodne za
početno pretraživanje, ali osnovna namena je
pregled i izrada citatnih analiza autora)

Bulovi operatori

AND	Finds documents containing all of the specified words or phrases. Peanut AND butter finds documents with both the word peanut and the word butter.
OR	Finds documents containing at least one of the specified words or phrases. Peanut OR butter finds documents containing either peanut or butter. The found documents could contain both items, but not necessarily.
AND NOT	Excludes documents containing the specified word or phrase. Peanut AND NOT butter finds documents with peanut but not containing butter. NOT must be used with another operator, like AND.
NEAR	Finds documents containing both specified words or phrases within 10 words of each other. Peanut NEAR butter would find documents with peanut butter, but probably not any other kind of butter.
*	The asterisk is a wildcard; any letters can take the place of the asterisk. Bass* would find documents with bass, basset and bassinet. You must type at least three letters before the *. You can also place the * in the middle of a word. This is useful when you're unsure about spelling. Colo*r would find documents that contain color and colour.

The screenshot shows the SciVerse ScienceDirect homepage. At the top, there are links for Hub, ScienceDirect, Scopus, SciTopics, Applications, Register, Login, and Go to SciVal. Below the header, there are two large circular icons: one for SciVerse and one for ScienceDirect. The main navigation bar includes Home, Browse, Search (which is highlighted with a purple oval), My settings, My alerts, and Shopping cart. The search interface allows searching by All fields, Author, Journal/Book title, Volume, Issue, and Page, with a 'Search ScienceDirect' button. On the left, there are sections for Browse (10,775,851 Articles), Browse by title (with letters A-Z), and Browse by subject (Physical Sciences and Engineering, Life Sciences). The Physical Sciences and Engineering section is expanded, listing sub-fields like Chemical Engineering, Chemistry, Computer Science, etc. The Life Sciences section is also expanded, listing Agricultural and Biological Sciences, Biochemistry, Genetics and Molecular Biology, Environmental Science, and Immunology and Microbiology. In the center, there is a large green box titled 'Top 25 Articles by Interest' with the heading 'TOP 25 Hottest Articles Select your interest'. It includes dropdown menus for 'all subject areas' and 'Current: October to December 2010', and a 'Browse TOP 25 archive' link. To the right, there is a sidebar for 'Latest News on ScienceDirect' with links to various news items, and at the bottom, there are 'About ScienceDirect' and 'Want to know more?' sections.

Highlights

► Information literacy is librarians' concern, has not had an impact on campus culture. ► Few information literacy activities target the information needs of students. ► Impact of the credit system, and teacher-centered instruction are big challenges. ► Misperceptions of academic stakeholders about Information literacy's influence exist. ► Degree of support of stakeholders, faculty librarian collaboration is insufficient.

Objedinjena pretraga - EBSCO Discovery Service

The screenshot shows the KobSON library website interface. At the top, there is a navigation bar with links for 'Tražite' (Search), 'Udaljeni pristup' (Remote access), 'Mapa sajta' (Site map), and 'Odjava' (Logout). Below the navigation bar, there is a search bar and some decorative icons of umbrellas.

The main content area features a sidebar on the left with links for 'KoBSON', 'INFORMACIJE' (Information), 'NAUKA U SRBIJI' (Science in Serbia), 'SERVISI' (Services), 'MOŽDA VAM ZATREBA' (Maybe you need), and 'SUGESTIJE I ZAMERKE' (Suggestions and tips). A logo for 'Ministarstvo prosvete, nauke i tehnološkog razvoja' (Ministry of Education, Science and Technological Development) is also present.

The central part of the page displays the 'Brzi linkovi' (Quick links) section. It includes a 'Publication Finder' search box with fields for 'Keyword', 'Full-Text (online)', and 'Peer Reviewed'. Below this, there is a table titled 'Izdavači:' (Publishers) with two columns of publisher names:

AC	Am Chem Soc	IO	Inst Phys Publ
AP	Am Inst Phys	OX	Oxford Journals
PA	Am Psych Assoc	RC	RSC
ME	ASME	SG	SAGE
CU	Cambridge	SD	Science Direct
EM	Emerald	SP	Springer/Kluwer
		WI	Wiley

Below the publisher table, there is a section titled 'Agregatori' (Aggregators) with a table showing various aggregator services:

EB	EBSCO	ON	DOAJ
HW	High Wire	MU	Project MUSE
FM	Free Medical	TE	TEEL
JS	JSTOR	Scindeks	
CI	Cairn.info	DOI	DoiSerbia

At the bottom of the page, there are links for 'Elektronske knjige' (Electronic books) and two footer tables:

CL	Cleveland Med Index
HE	Hein On Line

A purple arrow points from the text 'Brzi linkovi do svih servisa /' in the breadcrumb navigation to the 'Search EBSCO Discovery Service' input field in the central search interface.

Objedinjena pretraga - EBSCO Discovery Service

The screenshot shows a web interface for selecting a new service. At the top, there is a green header bar with the EBSCOhost logo. Below it, a section titled "Select New Service" contains several service options, each with an icon and a name. Two specific services are highlighted with purple circles: "KOBSON - SERBIA" and "EBSCO Discovery Service".

Service	Description

Basic search

The screenshot shows the KoBSON Discovery Service interface. At the top, there's a search bar with "Searching: Discovery Service for KoBSON - Serbia" and a dropdown menu set to "Keyword". Below the search bar are links for "Search Options", "Basic Search", "Advanced Search", and "Search History". The main content area is divided into three sections: "KoBSON" (with links to the consortium, access methods, news archive, statistics, and presentations), "Informacije" (with links to my IP, password recovery, citation statistics, interlibrary loan, and frequently asked questions), and "Nauka u Srbiji" (with links to our presence in WOS, DOI Serbia journals, DOI Serbia theses, and reference journals for young researchers). Below this, the "Advanced search" section is visible, featuring a search bar with "information literacy", a dropdown for "TX All Text", and buttons for "Search" and "Clear". It also includes sections for "Search Options" (with filters for AND/OR search, popular terms, and basic search services like library services, science, management, and journal), "Choose a discipline" (with categories like Agriculture & Agric., Anatomy & Physiol., Anthropology, etc.), and "Disciplines" (a large list of academic fields such as Information Technology, Political Science, Dentistry, Diplomacy & International Relations, Drama & Theater Arts, Economics, Engineering, etc.). At the bottom, there are sections for "Search Modes and Expanders" (with options for Boolean, Phrase, and Find all my search terms) and "Apply related words" (with a checkbox and a link to "Also search within the full text of the articles").

Korišćenje Alert opcije

Izdavači naučnih baza podataka pružaju registrovanom korisniku mogućnost korišćenja Alert servisa. Ta opcija Vam omogućava da sačuvate korišćene upite kako biste ih kasnije ponovo izvršavali. Osim toga, možete ih koristiti kao zahtev za periodično slanje izveštaja o novodatim člancima koji odgovaraju tim upitima.

Da biste koristili ovu pogodnost neophodno je da korisnik otvorи svoj lični nalog (registruje se) na svakom servisu pojedinačno. Te registracije su besplatne i međusobno nezavisne i nemaju nikakve veze sa KoBSON nalogom.

Postoji nekoliko tipova Alerts obaveštenja:

1. *Search Alerts* – obaveštenja vezana za pretrage. Ako korisnik odluči da sačuva određenu formu i sadržinu pretrage (npr. konkretnu konfiguraciju ključnih reči i imena autora po kojima je pretraživao bazu, slika ispod), ima mogućnost da putem Alerts aplikacije konfiguraciju konkretnе pretrage sačuva, a da mu servis automatski šalje obaveštenje na e-mail adresu kada god se u bazi pojavi neki novi članak koji odgovara kriterijumima pretrage.
2. *Volume/Issue Alerts* – obaveštenja vezana za nove brojeve i sveske časopisa. Korisnik može da izabere časopise za koje želi da dobija obaveštenja kada god izade nova sveska časopisa, naravno pod uslovom da se taj časopis referiše u bazi.
3. *Citation Alerts* – obaveštenja vezana za citiranje izabranih članaka. Korisnik može da traži da mu se za određene članke šalju obaveštenja kada god se u bazi pojavi neki novi rad koji citira izabrani članak.

RSS

Šta je RSS?

RSS (Really Simple Syndication) predstavlja aplikaciju za automatsko preuzimanje podataka sa internet sajtova. Uz pomoć RSS aplikacija moguće je pratiti promene na web lokaciji od interesa bez posećivanja samog sajta. RSS automatski preuzima podatke o promenama na sajtu i obaveštava korisnika o njima. Ako se na sajtu pojavi neka nova vest, tekst ili neki drugi sadržaj, korisnik dobija informaciju o tome.

Postoje dva preduslova da bi RSS funkcionisao:

1. Da web sajt ima RSS aplikaciju, tj. da je moguće preuzimati informacije na ovaj način sa njega.
2. Da korisnik ima aplikacije za čitanje RSS-a, kao i da određenu web lokaciju unese u listu sajtova za RSS informacije.

Ove aplikacije se mogu besplatno preuzeti sa Interneta.

Za istraživača koji želi da prati određene naučne časopise u elektronskoj formi (npr. preko KOBSON-a), RSS predstavlja odlično rešenje, jer se sve promene, tj. pojavljivanje novog broja i novih tekstova, automatski detektuju i informacija stiže direktno korisniku, štedeći na taj način njegovo vreme.

Vrednovanje

- stalna potreba vrednovanja naučne produkcije
- problem je pronalaženje načina

Impact Factor

Brojna vrednost faktora uticaja dobija se tako što se broj citata za dve poslednje godine podeli sa brojem objavljenih radova u te dve godine.

Faktor uticaja eliminiše razlike koje su mogle da nastanu kao posledica veće periodičnosti (više brojeva godišnje) ili dužinom izlaženja časopisa.

broj citata iz 2005 i 2004, u radovima 2006

IF 2006 =

broj radova objavljenih 2005 i 2004

$$8.12 = (2186 + 584) / (148 + 193)$$

Još o Impact Factor-u

- Journal Citation Report (jun)
- Institute for Scientific Information (Thomson)
- svetski priznat izvor
- obuhvata:
 - 8607 iz prirodnih nauka
 - 3110 iz društvenih nauka
- celokupna nauka podeljena u 220 oblasti

Objašnjenja

Zelena	vrhunski međunarodni časopis (M21); u svojoj disciplini je svrstan među prvih 30%
Plava	istaknuti međunarodni časopis (M22); u svojoj disciplini je svrstan između prvih 30% i 50%
Siva	međunarodni časopis (M23); Ima IF ali nije svrstan između prvih 50% u svojoj disciplini
Kratko objašnjenje	kako se računa impakt faktor možete pronaći na stranici često postavljana pitanja

Malo bolja mera / H-index

kvalitet rada istraživača nije jednodimenzionalni, već višedimenzionalni

- produktivnost - koliko je istraživač produktivan mereno brojem radova koje objavljuje
- uticaj - koliko su radovi koje istraživač objavljuje uticajni (citirani) u nauci

H-index

Lista objavljenih radova se uredi prema opadajućoj vrednosti dobijenih citata za te radove. Na taj način, redni broj 1 će imati rad sa najvećim brojem citata, sledeći rad sa manjim ili istim brojem citata će dobiti redni broj 2 i tako dalje. Ako obeležimo redne brojeve radova sa N , a citiranost radova sa C . Vrednost H-indeksa predstavlja najveću vrednost rednog broja za koju je $C \geq N$, tj. onaj broj radova koji imaju veći broj citata od rednog broja poslednjeg rada u toj grupi.

Na primer: istraživač koji je objavio radove A-I ima vrednost H-indeksa 6.

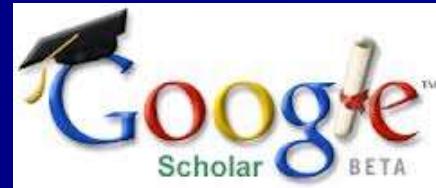

Redni broj	Rad	Broj citata
1	A	12
2	B	11
3	C	11
4	D	10
5	E	8
6	F	7
7	G	5
8	H	2
9	I	1

Da li je H-indeks validna mera?

Da bi se odgovorilo na pitanje da li je H - indeks validna mera, potrebno je naći uporedni okvir nezavistan od samog H-indeksa. Nobelova nagrada može biti jedna takva nezavisna mera kvaliteta naučnog rada. Na primer, sam Hirš je pokazao da 84% od naučnika koji su dobili Nobelovu nagradu ima vrednost H-indeksa 30 ili više.

The screenshot shows the Scopus search interface. At the top, there are links for SciVerse, Hub, ScienceDirect, Scopus, and Applications. On the right, there are links for Register, Login, and Go to SciVal. Below the header, there are links for Search, Sources, Analytics, Alerts, My list, Settings, Live Chat, Help, and Tutorials. A box on the right indicates that the site is brought to you by KoBSON - Konzorcijum biblioteka Srb objedinjenu nabavku.

The main search area has four tabs: Document search, **Author search**, Affiliation search, and Advanced search. The Author search tab is circled in red. The search form includes fields for Last Name (Author: Stevic), Initials or First Name (S.), and a checkbox for Show exact matches only. There is also a 'Search tips' link. The 'Search' button is highlighted with a red circle. To the right of the search form, there is a detailed explanation of the Scopus Author Identifier algorithm, mentioning that it matches author names based on affiliation, address, subject area, source title, dates of publication, citations, and co-authors. It notes that documents with insufficient data may not be matched, leading to multiple entries for the same author. By default, only details pages matched to more than one document in Scopus are shown in search results. A link to 'About Scopus Author Identifier' is provided.

To determine which author names should be grouped together under a single identifier number, the Scopus Author Identifier uses an algorithm that matches author names based on their affiliation, address, subject area, source title, dates of publication, citations, and co-authors. Documents with insufficient data may not be matched, this can lead to more than one entry in the results list for the same author. By default, only details pages matched to more than one document in Scopus are shown in search results. [About Scopus Author Identifier](#)

Early results of the use of oblong S-ROM cementless acetabular component

Papović Zoran, Pokimica Ljubomir, Starčević Šrđan, Rajović Jovo

Massive deficiency of acetabular bone stock is a challenging problem in the increasing number of patients who need a revision of the failed hip arthroplasty. Oblong acetabular cup has been presented as an alternative reconstruction technique for hips with extensive acetabular bone loss. The aim of this study was to present our results with the use of a bilobed acetabular component inserted during revisional surgery, to define indications, and to introduce this method into our orthopaedic practice. Seven patients underwent revisional hip arthroplasty with a cementless oblong acetabular component between September 2000 and June 2002. Six patients underwent revisional hip arthroplasty, and in one primary hip arthroplasty by oblong acetabular component was performed because of bone defect of acetabulum after gunshot fracture. The average follow up was thirteen months. Radiographic analysis in all patients demonstrated stable bone incorporated acetabular component with the restored hip. All the patients walked with full weight bearing and were without pain. On the basis of our experience we find this method satisfactory in certain types of bone defects of acetabulum, and that it provides stable reconstruction of acetabulum with the correction of hip joint.

Keywords: arthroplasty, replacement, hip, acetabulum, treatment outcome

Times Cited: 0 **References:** 16

Abstract: New quinazolinone-substituted fluoran Compounds were synthesized by reaction of keto acid, 2'-carboxy-2-hydroxy-4-N-pyrrolidinylbenzophenone with different quinazolinone derivatives in the presence of cone. sulphuric acid. All the synthesized fluoran compounds were characterized by spectroscopic methods (IR, H-1-NMR and UV-visible spectroscopy) and elemental analysis. The fluoran compounds are colourless or nearly colourless and develop colour on contact with electron-accepting compounds.

NALOG ZA OTVARANJE LIČNOG KORISNIČKOG IMENA NA SERVERU NARODNE BIBLIOTEKE SRBIJE

Molimo Vas da pažljivo pročitate sledeću licencu u kojoj su navedena pravila korišćenja Vašeg naloga.

Pre upotrebe svog naloga u Narodnoj biblioteci Srbije potvrđujem sledeće:

- ❖ Ja sam u ovom trenutku stalno zaposlen/a u instituciji čiji je osnivač Republika Srbija.
- ❖ Preuzete članke ću koristiti samo za svoj vlastiti akademski rad radi dostizanja naučnog zvaniča, podučavanja studenata, ili u istraživanjima koja finansiraju vlada ili neprofitne organizacije, a koja su namenjena objavljuvanju u javno dostupnoj literaturi.
- ❖ NEĆU PREUZIMATI na svoj računar celokupne sveske časopisa (puni tekst časopisa, od konica do korica), jer je to protivno potpisanoj licenci.
- ❖ NEĆU KORISTITI preuzete članke za komercijalna istraživanja, npr. za istraživanja koja se sprovode u okviru konsultantskih ugovora i čiji se rezultati dostavljaju profitnim organizacijama, ili za istraživanja koja mogu dovesti do patentira.
- ❖ Koristiju rezultate pretraga u skladu sa uobičajenom praksom za akademска istraživanja, i poznato mi je da ih mogu čuvati u elektronskoj formi. Rezultate pretraživanja mogu da delim sa kolegama na ograničen i razuman način.
- ❖ Poznato mi je da se registruje svaki pristup elektronskim servisima preko ovog naloga, i da će ti podaci biti korišćeni samo za zbirno praćenje korišćenja elektronskih izvora.
- ❖ Poznato mi je da će mi pristup elektronskim servisima biti onemogućen, ukoliko svoj nalog budem koristio/la suprotno navedenim pravilima.
- ❖ Poznato mi je da je Licenca za upotrebu baza važeća na teritoriji Republike Srbije, i da kršenje licence od strane bilo kog korisnika može dovesti do raskida ugovora za sve korisnike iz Srbije.

Lični podaci:

Prezime, srednje slovo i ime	
Zvanje (npr. docent i sl., istraživač saradnik i sl., lekar)

Osobine licence

- svi zaposleni u državnim institucijama (neograničeno trajanje)
- licenca je besplatna
- mogućnost pristupa sa bilo kog računara na teritoriji Srbije
- Mogućnost skidanja neograničenog broja radova, ali ne jedne cele sveske časopisa (ukidanje pristupa, ne novčana kazna)
- ne davati svoje kor. ime i sifru kolegama

[\[HTML\]](#) Generalized composition operators on Zygmund spaces and Bloch type spaces [HTML] from sciedirect.com
S Li, S Stević - Journal of Mathematical Analysis and Applications, 2008 - Elsevier
... 338 (2008) 1282–1295 www.elsevier.com/locate/jmaa Generalized composition operators on Zygmund spaces and Bloch type spaces Songxiao Li a,b,* , Stevo Stević cca Department of Mathematics, Shantou University, 515063, Shantou, GuangDong, China ... 8; S. Li, S. Stević; ...
Cited by 146 Related articles All 4 versions Cite Save

[\[HTML\]](#) Products of Volterra type operator and composition operator from H^∞ and Bloch spaces to Zygmund spaces [HTML] from sciedirect.com
S Li, S Stević - Journal of Mathematical Analysis and Applications, 2008 - Elsevier
The boundedness and compactness of the products of Volterra type operators and composition operators from the space of bounded analytic functions and the Bloch space to the Zygmund space are discussed in this paper.
Cited by 113 Related articles All 4 versions Cite Save

[\[HTML\]](#) Existence of nontrivial solutions of a rational difference equation [HTML] from sciedirect.com
S Stević - Applied Mathematics Letters, 2007 - Elsevier
We prove that the Putnam difference equation has a positive solution which is not eventually equal to 1. This provides positive confirmation of a conjecture due to G. Ladas [Open problems and conjectures, J. Difference Equ. Appl. 4 (1998) 497–499].
Cited by 107 Related articles All 2 versions Cite Save

[\[HTML\]](#) On positive solutions of a $(k+1)$ th order difference equation [HTML] from sciedirect.com
S Stević - Applied Mathematics Letters, 2006 - Elsevier
In this work we show that the following difference equation: where $k \in \mathbb{N}$ is fixed, has a positive solution which converges to zero. This result solves Open Problem 11.4. 10 (a) in [MRS Kulenović, G. Ladas, Dynamics of Second Order Rational Difference Equations. ...

Kategorizacija časopisa

Kategorizacija domaćih časopisa

U okviru programa "Bibliometrijska analiza i preliminarna kategorizacija domaćih naučnih časopisa" jednom godišnje objavljaju se rezultati u obliku interaktivnog web izveštaja pod nazivom **Bibliometrijski izveštaj o časopisima**. Detaljan opis ovog programa dostupan je na [web stranici CEON-a](#), gde se pored popisa svih pokazatelja nalazi i način njihovog izračunavanja.

Konačnu odluku o kategorizaciji časopisa koji izlaze u Srbiji, donosi Ministar, na predlog Matičnih naučnih odbora u okviru Ministerstva nadležnog za naučnoistraživačku delatnost. Za sva pitanja u vezi bodovanja naučnih radova obratite se analitičarima za pojedinačne naučne discipline: za [osnovna istraživanja i tehnički razvoj](#).

U cilju poboljšanja kvaliteta domaćeg naučnog periodičnog izdavaštva Ministerstvo je donelo [Akt o uređivanju naučnih časopisa](#).

Kategorizacija časopisa (preuzeta sa [web stranica Ministarstva nauke](#))

Vrednovanje

Ko zna o vrednovanju

Za sve informacije o vrednovanju, a koje niste pronašli na KoBSON stranicama obratite se analitičarima za pojedine naučne oblasti ([osnovna istraživanja i tehnološki razvoj](#)) pri Ministarstvu nauke.

Važeći [Pravilnik o postupku i načinu vrednovanja, i kvantitativnom iskazivanju naučnoistraživačkih rezultata istraživača](#), Službeni glasnik RS, broj 38/2008 (Detaljnije informacije možete pronaći na sajtu Ministarstva nauke)

U [Aktu o izboru, vrednovanju i finansiranju programa za ciklus istraživanja 2011-2014](#) u članu 2., str. 14. postoji detaljno objašnjenje o vrednovanju i načinu bodovanja objavljenih radova.

Zaključna razmatranja

Citatne baze:

Referišu izvestan korpus naučnih časopisa

Omogućuju predmetnu pretragu, uvid u
citiranost autora, analizu rezultata

Kao njihova dopuna nastaju bibliometrijski
izveštaji

Zbog različitog opsega razlikuju se
pokazatelji citiranosti autora i uticajnosti
časopisa
