

# Pretraživanje elektronskih časopisa po naslovu, naučnoj disciplini i ključnim rečima

Tatjana Timotijević  
<http://kobson.nb.rs>

Beograd, oktobar 2017.

# Teme

- Pretraživanje časopisa po naslovu
- Pretraživanje časopisa po naučnoj disciplini
- Pretraživanje po temi (ključnim rečima) - pojedinačno i objedinjeno
- Pretraživanje baza sažetaka i citata (Medline, Scopus, WoS)

Elektronski časopisi

Kod većine izdavača KoBSON pretplaćuje časopise u punom tekstu od 1997. godine, dok su ranija godišta dostupna do nivoa abstrakta. Predmetna, ili autorska, pretraživanja po člancima, moguće je obaviti:

- (1) na veb stranici izdavača izabranog iz menija, korišćenjem opcije brzo pretraživanje
- (2) na veb stranici izdavača
- (3) na veb stranicama agregatora (EBSCO, ProQuest)
- (4) indeksne baze (Web of Science, Scopus, Scindeks)

### Elektronski časopisi:

Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

## Servis EleKnjige

- Pretraga svih elektronskih knjiga pretplaćenih i dostupnih akademskoj zajednici Srbije.
- Obuhvata kolekciju od preko **150.000 naslova knjiga**, publikovanih od strane najpoznatijih izdavača naučnih informacija – **Elsevier, Springer, Oxford, Cambridge** i dr.

## Kategorizacija domaćih naučnih časopisa za 2015. i 2016. godinu

Ministarstvo prosvete, nauke i tehnološkog razvoja je objavilo **kategorizaciju domaćih naučnih časopisa za 2015. i 2016. godinu**.

Liste kategorizacija domaćih naučnih časopisa za period od 2006. do 2016. godine možete pogledati i na KoBSON stranici [Kategorizacija domaćih časopisa](#).

(objavljeno 28.07.2017.)

## Novo iz RSC-a

Obaveštavamo korisnike da je izdavač Royal Society of Chemistry (RSC) uveo niz pogodnosti za krajnje korisnike i publikovao, kako nove časopise, tako i Online platforme za besplatnu edukaciju.

## Novo iz JSTOR-a – Open Access Books

Obaveštavamo korisnike da je lista elektronskih knjiga, u bazi EleKnjige, ažurirana sa preko 400 novih naslova. Listu je objavio agregator JSTOR i sve knjige se nalaze u Open Access režimu i slobodne su kako za pregled, tako i za preuzimanje. Listu novih naslova možete pogledati na sledećem [linku](#).

(objavljeno 27.07.2017.)

# Pretraživanje časopisa po naslovu

The screenshot shows the KoBSON website interface. At the top, there is a navigation menu with the following items: KoBSON, INFORMACIJE, NAUKA U SRBIJI, **SERVISI** (highlighted with an orange circle), MOŽDA VAM ZATREBA, and SUGESTIJE I ZAMERKE. Below this is a secondary menu with items: **Pretraživanje časopisa** (highlighted with an orange circle), Elektronski časopisi, Pretraživanje knjiga, Elektronske knjige, Indeksne baze, and Strane doktorske disertacije. Under 'Pretraživanje časopisa', there is a sub-item 'Časopisi u papiru'.

The main content area is titled 'Servisi' and includes a search box for 'EDS Publication Finder' (EBSCO Discovery Service). The search box contains a 'Keyword' field and a 'Search' button. Below the search box, there are checkboxes for 'Full-Text (online)' and 'Peer Reviewed'.

**Servisi**

U 2016. godini, iz akademskih institucija u Srbiji, dostupno je preko 35.000 naslova stranih naučnih časopisa u punom tekstu, blizu 160.000 naslova knjiga, kao i nekoliko indeksnih baza podataka. Pretraživanje na KoBSON portalu moguće je obaviti samo prema naslovu časopisa ili knjige. Većina časopisa je u punom tekstu dostupna od 1997. godine, dok su ranija godišta dostupna do nivoa abstrakta. Za predmetna pretraživanja po člancima upućujemo Vas ili na nekog od agregatora, ili direktno na sajt izdavača.

**Pretraživanje časopisa:** Spisak svih časopisa koji su na neki način dostupni u bibliotekama Srbije (bilo elektronski, bilo u papirnoj formi), proširena naslovima časopisa koji su imali Impakt Faktor u poslednjih dvadeset godina. Prisustvo časopisa na toj listi je samo pokazatelj njegove dostupnosti, a nikako kvaliteta.

**Objedinjena pretraga svih servisa:** Pretraga se vrši preko servisa EBSCO Discovery, u okviru forme za pretragu na početnoj stranici KoBSON sajta, kao i odabirom opcije EBSCO Discovery Service na EBSCO platformi.

**Elektronski časopisi:** Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

## DoiSerbia

- Repozitorijum **55 naslova** domaćih naučnih časopisa sa arhivom punih tekstova od 2002. godine do danas.
- Trenutno broji preko **34.000** članaka opremljenih DOI brojem.

## Novi izgled KoBSON sajta

Usled mnogobrojnih pohvala novog izgleda KoBSON sajta, objavljujemo prvu pristiglu, a našu korisnicu nagrađujemo KoBSON kišobranom.

„Poštovani, srdačno Vam čestitam pokretanje novog vizuelno i sadržajno unapređenog web-site, najlepše hvala u ime naučne zajednice Vojvodine i Srbije na Vašem radu i važnom doprinosu našoj nauci.“

Zahvaljujemo 😊

(objavljeno 10.04.2017.)

## CPN otvara Naučni klub u Beogradu

Centra za promociju nauke (CPN) sutra, **06. aprila 2017. godine**, otvara Naučni klub u Beogradu, u Ulici kralja Petra

Dragi korisnici, dobro došli na novi sajt KoBSON-a. U skladu sa potrebama naučnika i istraživača, novi sajt je korisnički orijentisan, informativan i prilagođen uređajima različitih rezolucija - kako desktop i laptop računarima, tako tabletima i mobilnim telefonima.

# Pretraživanje časopisa po kategoriji ili naučnoj disciplini

The screenshot shows the KoBSON website interface. At the top left is the KoBSON logo. The navigation menu includes: KoBSON, INFORMACIJE, NAUKA U SRBIJI, SERVISI, MOŽDA VAM ZATREBA, and SUGESTIJE I ZAMERKE. Below the navigation is a search bar with the text "Tražite" and a magnifying glass icon. To the right of the search bar are icons for "udaljeni pristup", a lock icon, a refresh icon, a group of people icon, and "CPN". Below the search bar is a horizontal menu with "EleČas >" (highlighted with an orange circle), "EleKnjige >", "Naši u WOS >", "Pomoć >", and "Impresum >". To the right of this menu is "Pratite nas:" followed by Facebook and Twitter icons.

Below the navigation is a "Publication Finder" section. It features the EBSCO Discovery Service logo and the text "Search EBSCO Discovery Service". There is a "Keyword" input field with a dropdown arrow, a "Search" button, and two checkboxes: "Full-Text (online)" and "Peer Reviewed".

To the right of the search bar is a "DoiSerbia" section. It features a globe icon and the text "DoiSerbia". Below the icon are two bullet points: "Repozitorijum 55 naslova domaćih naučnih časopisa sa arhivom punih tekstova od 2002. godine do danas." and "Trenutno broji preko 34.000 članaka opremljenih DOI brojem." Below the text are five circles, with the first one filled.

Below the search bar is a "Novi izgled KoBSON sajta" section. It features the text "Novi izgled KoBSON sajta" and a paragraph: "Usled mnogobrojnih pohvala novog izgleda KoBSON sajta, objavljujemo prvu pristiglu, a našu korisnicu nagrađujemo KoBSON kišobranom." Below the paragraph is a quote: "„Poštovani, srdačno Vam čestitam pokretanje novog vizuelno i sadržajno unapređenog web-site, najlepše hvala u ime naučne zajednice Vojvodine i Srbije na Vašem radu i važnom doprinosu našoj nauci.“" Below the quote is "Zahvaljujemo 😊" and a date "(objavljeno 10.04.2017.)". At the bottom of the section are social media icons for LinkedIn, Facebook, Twitter, Google+, and YouTube.

To the right of the "Novi izgled KoBSON sajta" section is a "Korisni linkovi" section. It features the text "Korisni linkovi" and three sub-sections: "NOVI KORISNICI" with the text "Ko ima pravo pristupa" and "Kome je KoBSON dostupan"; "KAKO KORISTITI KoBSON" with the text "Pretraživanje časopisa", "Pretraživanje Naši u WoS", and "Kako 'od kuće' do KoBSON-a KoBSON na Facebook-u"; and "KoBSON ZA POČETNIKE" with the text "ČESTA PITANJA O:" and "Dostupnosti KoBSON-a".

Below the "Novi izgled KoBSON sajta" section is a "CPN otvara Naučni klub u Beogradu" section. It features the text "CPN otvara Naučni klub u Beogradu" and a paragraph: "Centra za promociju nauke (CPN) sutra, 06. aprila 2017. godine, otvara Naučni klub u Beogradu, u Ulici kralja Petra" (partially visible).

To the right of the "CPN otvara Naučni klub u Beogradu" section is a "Dragi korisnici, dobro došli na novi sajt KoBSON-a. U skladu sa potrebama naučnika i istraživača, novi sajt je korisnički orijentisan, informativan i prilagođen uređajima različitih rezolucija - kako desktop i laptop računarima, tako tabletima i mobilnim telefonima." section. It features a large image of colorful fireworks.

# Pretraživanje časopisa po kategoriji ili naučnoj disciplini

The screenshot displays the KoBSON website's search interface. At the top left is the KoBSON logo. The navigation menu includes: KoBSON, INFORMACIJE, NAUKA U SRBIJI, SERVISI, MOŽDA VAM ZATREBA, and SUGESTIJE I ZAMERKE. A search bar is located in the top right, with a search icon and the text "Tražite". Below the search bar are links for "udaljeni pristup", "CPT", and "Pratite nas" with social media icons for Facebook and Twitter.

The main search area has two input fields: "reči u naslovu časopisa" and "ISSN". Below these is a dropdown menu labeled "oblast" (field) with "Biotechnology & Applied Microbiology" selected. A list of scientific disciplines is shown, with "Biotechnology & Applied Microbiology" highlighted in blue and circled in orange. Other visible disciplines include Automation & Control Systems, Behavioral Sciences, Biochemical Research Methods, Biochemistry & Molecular Biology, Biodiversity Conservation, Biology, Biology, Miscellaneous (current - relevant discipline), Biomethods (current - Biochemical Research Methods), Biophysics, Botany (current - Plant Sciences), Business, Business, Finance, Cancer (current - Oncology), Cardiac & Cardiovascular Systems, Cardiovascular System (current - Cardiac & Cardiovascular Systems), Cell & Tissue Engineering, Cell Biology, Ceramics Chemistry, and Chemistry (current - Chemistry).

On the right side, there is a vertical menu with four items: "KoBSON lista", "Važno", "Časopisi u papirnoj formi", and "Nazivi disciplina", each with a green arrow icon pointing down.

At the bottom of the page, there are links for "Načini pristupa", "Zaboravljena lozinka", "Srpski citatni indeks", and "Elektronski časopisi". In the bottom right corner, there are links for "MOŽDA VAM ZATREBA" and "SUGESTIJE I ZAMERKE", along with social media icons for Facebook and Twitter, and a link for "Google alati".

## Embryonic Stem Cells/Induced Pluripotent Stem Cells

EMBRYONIC STEM CELLS/INDUCED PLURIPOTENT STEM CELLS

### Concise Review: Induced Pluripotent Stem Cell-Based Drug Discovery for Mitochondrial Disease

Gizem Inak, Carmen Lorenz, Pawel Lisowski, Annika Zink, Barbara Mlody, Alessandro Prigione

First Published: 22 May 2017 Vol: 35, 1655–1662 | DOI: 10.1002/stem.2637

Abstract | Full Text (HTML) | PDF (381.4KB) | References

Once induced pluripotent stem cells (iPSCs) have been derived from mitochondrial patients, isogenic controls can be generated using genome editing technologies. Correcting the mutations is, however, currently very challenging in the case of mtDNA. The choice of an effective neural cell model is critical for enabling the establishment of high-throughput compound screenings. The screenings can be developed based on targets that

are already known or on cellular phenotypes that are identified using the iPSC-derived neural cells. After the screenings, several validation steps using various methods and model systems are necessary before being able to propose any compound as a treatment, leading to a personalized strategy for drug discovery of neurological mitochondrial disease.

# HTML vs PDF

$10^4$  live CD117+ per fetus at a gestational age of 13-14 days (E13-E14; term E21) [1].

An increasing number of publications describe AFSC isolation using culture conditions alone (no CD117 selection at any stage). In the majority of these studies, amniocytes are plated in tissue culture-treated dishes in high-serum media (DMEM, with 10%-20% FBS, with or without basic fibroblast growth factor/FGF-2) [29], and cells have largely mesodermal potential (i.e., they can generate adipogenic, chondrogenic, osteogenic, and myogenic lineages; likely to be AFMSC) [21, 30], although some authors have reported multi-lineage differentiation potential not restricted to mesoderm (including neural differentiation, as well as embryoid body formation) [31-35]. In other cases, it has been observed that cells with similar potentials to AFSC can be derived using precise culture methodology but without positive selection [25, 27]. AFSC, derived by positive selection or by expansion conditions, have a cellular phenotype that is between ESCs and adult mesenchymal stem cells (MSC; see Cellular Characteristics and Fig. 1 below) [17]; this is in contrast to other amniotic fluid-derived cells with a purely mesenchymal phenotype [29], with obvious implications regarding potential regenerative medicine applications. For the rest of the present review, we will focus our discussion on CD117+ AFSC only.

Figure 1.

[Open in figure viewer](#) | [Download Powerpoint slide](#)

AFSC have an intermediate cellular phenotype between ESCs/iPSC and MSC. This is supported by expression of both markers/transcription factors of pluripotency and mesenchymal commitment, as well as their broadly multipotent nature (ability to

## CANCER STEM CELLS

### Myeloma Propagating Cells, Drug Resistance and Relapse

ANASTASIOS KARADIMITRIS,<sup>a,b</sup> ARISTEIDIS CHAIDOS,<sup>a,b</sup> VALENTINA CAPUTO,<sup>a</sup> KATERINA GOUDENOU,<sup>a</sup> KANAGARAJU PONNUSAMY,<sup>a</sup> XIAOLIN XIAO<sup>a</sup>

#### ABSTRACT

Multiple myeloma (MM) is an incurable tumor of the plasma cells, the terminally differentiated immunoglobulin secreting B lineage cells. The genetic make-up of MM has been extensively characterized but its impact on the biology of the disease is incomplete without more precise knowledge of the identity and functional role of cells with multiple myeloma propagating activity (MMPA). We review here recent data that link MMPA with myeloma clonal populations organized in a cellular hierarchy that mirrors normal B cell development and also with drug resistance and disease relapse. We further propose a conceptual framework which, with optimal use of recent technological advances in genomics and phenomics, could allow dissection of the cellular and molecular properties of cells with MMPA, drug resistance and in vivo relapse in an integrated and patient-specific manner. There is real hope that these approaches will significantly contribute to further improvements in disease control, overall survival, and possibly cure of patients with MM. *STEM CELLS* 2015;33:3205-3211

#### SIGNIFICANCE STATEMENT

In this review article we attempt to provide an integrated view of the data that link multiple myeloma propagating cells (MMPA) with drug resistance and disease relapse. We also provide a blueprint for a tri-dimensional study of MMPA and drug resistance in myeloma patients i.e., diagnosis vs remission/relapse; bone marrow vs distant disease and within the cellular architecture of the tumour itself by utilizing the unprecedented power of the new high throughput technologies. It is hoped that such approaches will contribute in the more in-depth understanding of the mechanisms that sustain survival and growth of myeloma cells and will identify new therapeutic targets.

**Servisi**

U 2016. godini, iz akademskih institucija u Srbiji, dostupno je preko 35.000 naslova stranih naučnih časopisa u punom tekstu, blizu 160.000 naslova knjiga, kao i nekoliko indeksnih baza podataka. Pretraživanje na KoBSON portalu moguće je obaviti samo prema naslovu časopisa ili knjige. Većina časopisa je u punom tekstu dostupna od 1997. godine, dok su ranija godišta dostupna do nivoa abstrakta. Za predmetna pretraživanja po člancima upućujemo Vas ili na nekog od agregatora, ili direktno na sajt izdavača.

**Pretraživanje časopisa:** Spisak svih časopisa koji su na neki način dostupni u bibliotekama Srbije (bilo elektronski, bilo u papirnoj formi), proširena naslovima časopisa koji su imali Impakt Faktor u poslednjih dvadeset godina. Prisustvo časopisa na toj listi je samo pokazatelj njegove dostupnosti, a nikako kvaliteta.

**Objedinjena pretraga svih servisa:** Pretraga se vrši preko servisa EBSCO Discovery, u okviru forme za pretragu na početnoj stranici KoBSON sajta, kao i odabirom opcije EBSCO Discovery Service na EBSCO platformi.

**Elektronski časopisi:** Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

**EBSCO Discovery Service**

- Servis za objedinjenu pretragu sadržaja
- Pružna mogućnost pretrage svih pretplaćenih servisa, preko 35.000 časopisa, preko 150.000 knjiga, kao i brojne sadržaje dostupne u režimu otvorenog pristupa.

● ● ● ● ●

**Kategorizacija domaćih naučnih časopisa za 2015. i 2016. godinu**

Ministarstvo prosvete, nauke i tehnološkog razvoja je objavilo kategorizaciju domaćih naučnih časopisa za 2015. i 2016. godinu. Liste kategorizacija domaćih naučnih časopisa za period od 2006. do 2016. godine možete pogledati i na KoBSON stranici Kategorizacija domaćih časopisa.

(objavljeno 28.07.2017.)

**Novo iz JSTOR-a - Open Access Books**

Obaveštavam korisnike da je lista elektronskih knjiga, u bazi EleKnjige, ažurirana sa preko 400 novih naslova. Listu je objavio agregator JSTOR i sve knjige se nalaze u Open Access režimu i slobodne su kako za pregled, tako i za preuzimanje. Listu novih naslova možete pogledati na sledećem linku.

(objavljeno 27.07.2017.)

**Novo iz RSC-a**

Obaveštavam korisnike da je izdavač Royal Society of Chemistry (RSC) uveo niz pogodnosti za krajnje korisnike i publikovao, kako nove časopise, tako i Online platforme za besplatnu edukaciju.

RSC ne sadrži časopise samo iz oblasti hemije, već i iz mnogih srodnih disciplina kao što su biologija, životna sredina i sl. (pogledajte celu listu u sledećem PDF-u). Kolekcija RSC Gold 2017 okuplja 36 visoko kvalitetnih časopisa iz oblasti hemije i drugih srodnih oblasti. Dva časopisa koja imaju IF su prešla na režim otvorenog pristupa - RSC Advances i Chemical Science. Dobra vest za autore je da je objava radova u drugom časopisu, Chemical Science, besplatna do kraja sledeće godine. APC (Article Processing Charge) se naplaćuje za prvi časopis, RSC Advances, a tim što je omogućen popust za sve zainteresovane koji će trajati takođe do kraja sledeće godine.

Ono što je novina i svakako preporuka za sve istraživače, jesu besplatne Online platforme - LearnChemistry i ChemSpace.

**Objavljen SJR (SCImago Journal Rank) servisa SCImago za 2016. godinu**

SCImago je objavio SJR (SCImago Journal Rank) za 2016. godinu. Podaci su postavljeni u okviru odeljka Možete vam zatreba - Vrednovanje - SJR - SCImago i takođe se mogu pogledati na zvaničnoj stranici ovog servisa.

# Agregatori i izdavači

## Dostupni izdavači:

AC, AP, CU, EM, IOP, OX, SG, SD, SP, WI,  
ASME, RSC

(puni tekstovi članaka često dostupni el. pre njihovog štampanja u papirnoj formi)

## Dostupni agregatori:

EB, FM, HE, HW, JS, TE

(baze koje sadrže časopise više izdavača, često sadrže "embargo" period 3, 6 ili 12 meseci)

# Bulovi operatori

AND	Finds documents containing all of the specified words or phrases. Peanut AND butter finds documents with both the word peanut and the word butter.
OR	Finds documents containing at least one of the specified words or phrases. Peanut OR butter finds documents containing either peanut or butter. The found documents could contain both items, but not necessarily.
AND NOT	Excludes documents containing the specified word or phrase. Peanut AND NOT butter finds documents with peanut but not containing butter. NOT must be used with another operator, like AND.
NEAR	Finds documents containing both specified words or phrases within 10 words of each other. Peanut NEAR butter would find documents with peanut butter, but probably not any other kind of butter.
*	The asterisk is a wildcard; any letters can take the place of the asterisk. Bass* would find documents with bass, basset and bassinet. You must type at least three letters before the *. You can also place the * in the middle of a word. This is useful when you're unsure about spelling. Colo*r would find documents that contain color and colour.

When we think of antibiotic causing common infections to prevent the arrival of a post-antibiotic era...

ings to mind -- but the problem is far more widespread, with high levels of resistance in bacteria respiratory and sexually transmitted infections: but is there anything that we in primary care can do

As we lurch along in the 21st Century, when the biggest UK killers are cancer and ischaemic heart disease, it is hard to appreciate the role that infectious diseases played before the middle of the 20th Century. Certainly cancer and heart disease existed, but it was infections that frightened people. Industrialisation brought outbreaks of cholera and typhoid to the squalid urban poor. Before that, waves of plague swept the country, and indeed Europe, at regular intervals, with mortality rates that almost defy belief. But perhaps the most telling example of historical killer infections was tuberculosis (TB).

Though accurate records are difficult to acquire, it is believed that TB killed one-third of all those who died in Britain between 1800 and 1850.1 Furthermore it targeted young adults, people who would otherwise be economically active and bringing up children. Like many infectious diseases, the outlook for succumbing to TB improved markedly with improved social conditions and hygiene, but another significant contribution was made by the discovery of drugs that would kill the causative mycobacterium. This was a triumph for science and social progress: in 1913 there were 120,000 cases of TB notified in England and Wales and 39,000 deaths (from a rather smaller national population, and at a time when notification was probably less complete), but by 2013 there were only 7,400 cases notified and 280 deaths.2 However, the 2013 figure is not zero and one important reason for this is the emergence of strains of the TB bacillus which are resistant to multiple antibiotics. If, or more probably when, other seriously nasty infections follow the same pattern (and there is plenty of evidence that this is already happening) we will again face the awful prospect of dealing with waves of incurable infectious diseases. The stakes are really that high.

**THE SCALE OF THE PROBLEM**

It has been apparent for some years that resistance to the antibiotics generally used in the treatment of bacteria is becoming more common (it is, of course, the bacteria which acquire resistance, not individual patients). Public Health England estimates that by 2050, antimicrobial resistance (AMR) will cost the global economy \$100 trillion. This also translates into 10 million deaths globally.3 AMR is truly an international concern as infectious diseases are these days concentrated in less economically developed countries, countries that also are going to be less able to pay the costs. The World Health Organization4 is deeply concerned about AMR, stating: "Without urgent, coordinated action, the world is heading towards a post-antibiotic era, in which common infections and minor injuries, which have been treatable for decades, can once again kill." (Pedantic note: antimicrobial resistance refers to resistance to antibiotics, but also to anti-fungal and anti-viral drugs. As antibiotics are used much more in primary care than the other two categories, this article focuses on antibiotics).

# Pretraživanje po temi ili ključnim rečima - Science Direct

The screenshot shows the KoBSON website interface. At the top, there is a navigation bar with the KoBSON logo and several menu items: KoBSON, INFORMACIJE, NAUKA U SRBIJI, **SERVISI** (circled in orange), MOŽDA VAM ZATREBA, and SUGESTIJE I ZAMERKE. Below this is a secondary navigation bar with categories: Pretraživanje časopisa, **Elektronski časopisi** (circled in orange), Pretraživanje knjiga, Elektronske knjige, Indeksne baze, and Strane doktorske disertacije. Under 'Pretraživanje časopisa', there is a link for 'Časopisi u papiru'.

The main content area is titled 'Elektronski časopisi' and includes a breadcrumb trail: Početak / **SERVISI** / Elektronski časopisi. A search box for 'EDS Publication Finder' is present, featuring the EBSCO Discovery Service logo and a search input field with a 'Search' button. Below the search box, there are checkboxes for 'Full-Text (online)' and 'Peer Reviewed'.

The text below the search box explains that most publishers on KoBSON provide full-text access from 1997 onwards. It lists five methods for finding journals:

- na veb stranici izdavača izabranog iz menija, korišćenjem opcije brzo pretraživanje
- na veb stranici izdavača
- na veb stranicama agregatora (EBSCO)
- indeksne baze (Web of Science, Scopus, Scindeks)
- objedinjena pretraga svih servisa (EBSCO Discovery Service)

Under the heading 'Elektronski časopisi:', it states that a group of publishers has their titles available in full-text format. A list of publishers follows, with 'Science Direct' (SD) circled in orange:

- AC American Chemical Society
- AP American Institute of Physics
- PA American Psychological Association / APA
- ME ASME Transaction Journals
- CU Cambridge University Press
- EM Emerald Publishing
- IO Institute of Physics Publishing
- OX Oxford Journals
- RC Royal Society of Chemistry
- SG SAGE Publishing
- SD Science Direct**
- SP Springer/kluwer
- WI Wiley Interscience

On the right side of the page, there is a 'Korisni linkovi' section with several sub-sections: 'NOVI KORISNICI', 'KAKO KORISTITI KoBSON', 'KoBSON ZA POČETNIKE', 'ČESTA PITANJA O:', 'SKRAĆENICE NA KoBSONu', 'DIGITALNI REPOZITORIJUM NARODNE BIBLIOTEKE SRBIJE', 'NAĐI DOI', 'GOOGLE SCHOLAR', 'DOISERBIA', and 'BRZA STRANICA'. A 'Newsletter' section is partially visible at the bottom right.

Efficient Derivation of Functional Human Airway Epithelium from Pluripotent Stem Cells via Temporal

Regulation of Wnt Signaling Original Research Article

*Cell Stem Cell*, Volume 20, Issue 6, 1 June 2017, Pages 844-857.e6

Katherine B. McCauley, Finn Hawkins, Maria Serra, Dylan C. Thomas, Anjali Jacob, Darrell N. Kotton

[Abstract](#) | [Graphical abstract](#) | [Research highlights](#) | PDF (4971 K) | [Supplementary content](#)

Kotton and colleagues show that carefully timed regulation of Wnt signaling can direct human pluripotent cells to differentiate rapidly into functional airway epithelial organoids with many potential applications in disease modeling, drug screening, and precision medicine, and for diseases such as cystic fibrosis.

Making human cardiomyocytes up to date: Derivation, maturation state and perspectives Original

Histone Demethylase Expression Enhances Human Somatic Cell Nuclear Transfer Efficiency and Promotes Derivation of Pluripotent Stem Cells

Open Archive

*Cell Stem Cell*, Volume 17, Issue 6, 3 December 2015, Pages 758-766

Young Gie Chung, Shogo Matoba, Yuting Liu, Jin Hee Eum, Falong Lu, Wei Jiang, Jeoung Eun Lee, Vicken Sepilian, Kwang Yul Cha, Dong Ryul Lee, Yi Zhang

[Abstract](#) | [Graphical abstract](#) | [Research highlights](#) | PDF (2931 K) | [Supplementary content](#)

Zhang and colleagues show that, as they found previously in mouse, injection of a histone demethylase improves the efficiency of human SCNT reprogramming. Using this approach they were able to reduce variability in success from different egg donors and derive human NT-ESC lines from patients with age-related macular degeneration.

Differentiation and sarcomere formation in skeletal myocytes directly prepared from human induced pluripotent stem cells using a sphere-based culture Original Research Article

*Differentiation*, In Press, Accepted Manuscript, Available online 1 August 2017

**Highlights**

- H3K9me3 is a barrier for human SCNT reprogramming as in mouse
- Injection of human KDM4A mRNA improves SCNT success in mouse oocytes
- KDM4A also improves human SCNT blastocyst formation and NT-ESC derivation
- H3K9me3 removal facilitates zygotic genome activation in human SCNT embryos

## TEEAL

### TEEAL

<b>iz akademske institucije</b>	<b>udaljeni pristup</b>
(podešavanje Proxy servera)	(o pristupu 'od kuće')

**O TEEAL (The Essential Electronic Agricultural Library) bazi**

TEEAL je elektronska baza podataka koja sadrži preko 275 naslova časopisa od preko 90 izdavača iz oblasti agrikulture. Pretražive su agrikultura ekonomija, poljoprivredna tehnika, agronomija, usevi i nauka o zemljištu, entomologija, upravljanje prirodnim resursima, šumarstvo, upravljanje poljoprivredom, ishrana i nauka o hrani, biljna patologija, ruralni razvoj, održiva poljoprivreda, veterina i slične nauke i discipline.

**Kratko uputstvo o pretraživanju baze**

Bazu je moguće pretraživati po temi ili ključnim rečima, pri čemu se pretraga termina vrši u naslovu, autorima i sažetku. Ako želite konkretnu pretragu po naslovu, autoru ili sažetku izaberite odgovarajuću stavku iz padajuće liste.

Takođe je omogućeno i napredno pretraživanje – pretraživanje po više različitih kriterijuma istovremeno - po zadatoj temi ili autoru, sa ograničavanjem na pojedinu godinu i/ili na pretraživanje samo u okviru jednog naslova časopisa. Izborom pojedinačnog naslova časopisa dobija se lista svih radova objavljenih od 1993. godine, – izlistanih obrnuto-hronološki – od najnovijih ka starijim godištim, ali se pretraživanje može ograničiti i na samo jednu godinu.

**O** TEEAL (The Essential Electronic Agricultural Library) bazi

TEEAL je elektronska baza podataka koja sadrži preko 275 naslova časopisa od preko 90 izdavača iz oblasti agrikulture. Pretražive su agrikulturna ekonomija, poljoprivredna tehnika, agronomija, usevi i nauka o zemljištu, entomologija, upravljanje prirodnim resursima, šumarstvo, upravljanje poljoprivredom, ishrana i nauka o hrani, biljna patologija, ruralni razvoj, održiva poljoprivreda, veterina i slične nauke i discipline.

**P**retraživanje baze TEEAL moguće je na dva načina:

1. Bazu je moguće pretraživati po temi ili ključnim rečima, pri čemu se pretraga termina vrši u naslovu, autorima i sažetku. Ako želite konkretnu pretragu po naslovu, autoru ili sažetku izaberite odgovarajuću stavku iz padajuće liste.
2. Takođe je omogućeno i napredno pretraživanje – pretraživanje po više različitih kriterijuma istovremeno – po zadatoj temi ili autoru, sa ograničavanjem na pojedinu godinu i/ili na pretraživanje samo u okviru jednog naslova časopisa. Izborom pojedinačnog naslova časopisa dobija se lista svih radova objavljenih od 1993. godine, – izlistanih obrnuto-hronološki – od najnovijih ka starijim godištim, ali se pretraživanje može ograničiti i na samo jednu godinu.

Naslov	Kyoto protocol and social accounting implication on global-warming in Malaysia: an action research approach
Autor(i)	Yee-LeeMei, Susela-Devi, Khin-WongSek-[Khin-W-S-E-]
Abstract	This study examines the relationship between social change demands and tactical decision making processes resulting from apparent global-warming and climate-change by employing an action research methodology. The objective was to uncover the perceptions of Malaysian corporate management concerning the present debate on climate change. These corporate officers occupy the top decision making positions that disperse the day to day operational decisions as well as being directly involved with longer term considerations, particularly of the financial implications of the debates and forthcoming national and international legal implications concerning global-warming/climate-change. This research is a descriptive study. Interviews with the management of 30 randomly selected companies were conducted, and the results and conclusions support the view that carbon trading is not an effective approach to resolve the apparent carbon dioxide problem. This study has provided greater understanding of the corporate view regarding measures aimed at prevention of large rise in global temperatures.

# Pretraživanje baza sažetaka i citata - Medline, Scopus, Web of Science

The screenshot shows the KoBSON website interface. At the top, the KoBSON logo is on the left, and navigation links 'KoBSON', 'INFORMACIJE', 'NAUKA U SRBIJI', 'SERVISI', 'MOŽDA VAM ZATREBA', and 'SUGESTIJE I ZAMERKE' are on the right. Below this, a secondary navigation bar contains 'Pretraživanje časopisa', 'Elektronski časopisi', 'Pretraživanje knjiga', 'Elektronske knjige', 'Indeksne baze', and 'Strane doktorske disertacije'. The 'SERVISI' and 'Indeksne baze' links are circled in orange. The main content area shows a breadcrumb trail 'Početak / SERVISI / Indeksne baze' and the title 'Indeksne baze'. A green arrow points to a list of database types: 'Indeksne baze podataka' and 'Indeksne baze citata'. The 'Indeksne baze citata' section lists various databases with their abbreviations and full names. A yellow arrow points to 'MEDLINE'. On the right, there are sections for 'Korisni linkovi', 'NOVI KORISNICI', 'KAKO KORISTITI KoBSON', 'KoBSON ZA POČETNIKE', and 'DIGITALNI REPOZITORIJUM NARODNE BIBLIOTEKE SRBIJE'.

Početak / SERVISI / Indeksne baze

## Indeksne baze

Indeksne baze podataka sadrže bibliografske podatke o radovima iz časopisa koji su u njima zastupljeni. Za svaki članak dati su detaljni podaci:

- autor rada i institucija
- naslov rada
- naziv časopisa
- godina
- jezik rada
- tip rada
- sažetak

Ukoliko zapis obuhvata i popis korišćene literature, takve baze nazivamo citatnim (Web of Science, Scopus, Srpski citatni indeks).

### O bazi

MEDLINE je vodeća svetska bibliografska baza iz oblasti biomedicinskih nauka. Dostupna je besplatno.

Pored bibliografskih podataka o svakom članku iz preko 5.000 časopisa, uspostavljen je i link do punog teksta. Dostupnost članka u punom tekstu uslovljena je pretplatom na elektronsku verziju časopisa (preko KoBSON-a ili na neki drugi način).

Svaki članak se indeksira odrednicama iz kontrolisanog terminološkog tezaurusa Medical Subject Headings - MeSH (<http://www.nlm.nih.gov/mesh/meshhome.html>), koji obuhvata preko 24.500 odrednica uređenih hijerarhijski na devet nivoa.

## Alert

### Korišćenje Alert opcije

Izdavači naučnih baza podataka pružaju registrovanom korisniku mogućnost korišćenja *Alert* servisa. Ta opcija Vam omogućava da sačuvate korišćene upite kako biste ih kasnije ponovo izvršavali. Osim toga, možete ih koristiti kao zahtev za periodično slanje izveštaja o novodotatim člancima koji odgovaraju tim upitima.

Da biste koristili ovu pogodnost neophodno je da korisnik otvori svoj lični nalog (registruje se) na svakom servisu pojedinačno. Te registracije su besplatne i međusobno nezavisne i nemaju nikakve veze sa KoBSON nalogom.

Postoji nekoliko tipova Alerts obaveštenja:

1. *Search Alerts* – obaveštenja vezana za pretrage. Ako korisnik odluči da sačuva određenu formu i sadržinu pretrage (npr. konkretnu konfiguraciju ključnih reči i imena autora po kojima je pretraživao bazu, slika ispod), ima mogućnost da putem Alerts aplikacije konfiguraciju konkretne pretrage sačuva, a da mu servis automatski šalje obaveštenje na e-mail adresu kada god se u bazi pojavi neki novi članak koji odgovara kriterijumima pretrage.
2. *Volume/Issue Alerts* – obaveštenja vezana za nove brojeve i sveske časopisa. Korisnik može da izabere časopise za koje želi da dobija obaveštenja kada god izađe nova sveska časopisa, naravno pod uslovom da se taj časopis referiše u bazi.
3. *Citation Alerts* – obaveštenja vezana za citiranje izabranih članaka. Korisnik može da traži da mu se za određene članke šalju obaveštenja kada god se u bazi pojavi neki novi rad koji citira izabrani članak.

## RSS

### Šta je RSS?

RSS (Really Simple Syndication) predstavlja aplikaciju za automatsko preuzimanje podataka sa internet sajtova. Uz pomoć RSS aplikacija moguće je pratiti promene na web lokaciji od interesa bez posećivanja samog sajta. RSS automatski preuzima podatke o promenama na sajtu i obaveštava korisnika o njima. Ako se na sajtu pojavi neka nova vest, tekst ili neki drugi sadržaj, korisnik dobija informaciju o tome.

Postoje dva preduslova da bi RSS funkcionisao:

1. Da web sajt ima RSS aplikaciju, tj. da je moguće preuzimati informacije na ovaj način sa njega.
2. Da korisnik ima aplikacije za čitanje RSS-a, kao i da određenu web lokaciju unese u listu sajtova za RSS informacije.

Ove aplikacije se mogu besplatno preuzeti sa Interneta.

Za istraživača koji želi da prati određene naučne časopise u elektronskoj formi (npr. preko KOBSON-a), RSS predstavlja odlično rešenje, jer se sve promene, tj. pojavljivanje novog broja i novih tekstova, automatski detektuju i informacija stiže direktno korisniku, štedeći na taj način njegovo vreme.

# Čuvanje pretraživanja ili kreiranje "Alert-a"

The screenshot shows the EBSCOhost search interface. At the top, the search term "heart attack and stress" is entered in the search bar, with "Search" and "Clear" buttons. The interface includes a "Refine Search" sidebar on the left with options like "185 Results for...", "Refine your results", and "Source Types". The main search results area shows a list of articles, with the first one titled "Grieving may trigger heart attack." A "Create Alert" dialog box is overlaid in the center, containing the following information:

- Create Alert** (with a help icon)
- Search Alert: "heart attack and stress on 2013-10-18 08:47 AM"
- E-mail (You must sign in to send e-mail alerts. [Sign In](#))
- General Settings**
- Frequency: Once a day (dropdown)
- Articles published within the last: One Year (dropdown)
- Results format**
- Brief (dropdown menu is open, showing options: Brief, Detailed, Bibliographic Manager)
- RSS Feed (with RSS icon)
- URL: <http://rss.ebscohost.com/AlertSyndicationService/Syndication.aspx/GetFeed?guid=3783401>
- Buttons: **Save Alert** (circled in orange) and Cancel Alert
