Elektronski časopisi

Kod većine izdavača KoBSON pretplaćuje časopise u punom tekstu od 1997. godine, dok su ranija godišta dostupna do nivoa abstrakta. Predmetna, ili autorska, pretraživanja po člancima, moguće je obaviti:

- (1) na veb stranici izdavača izabranog iz menija, korišćenjem opcije brzo pretraživanje
- (2) na veb stranici izdavača
- (3) na veb stranicama agregatora (EBSCO, ProQuest)
- (4) indeksne baze (Web of Science, Scopus, Scindeks)

Elektronski časopisi:

Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

Izdavači:

AC	American Chemical Society
AP	American Institute of Physics
PA	American Psychological Association
CU	Cambridge University Press

Naši u WoS

- Repozitorijum radova autora iz Srbije koji su referisani u **Web of Science** servisu, publikovanih od 2000. godine do danas.
- Zapis svakog rada opremljen je nizom korisnih linkova – ka originalnom zapisu u WoS-u, ka punom tekstu, podacima o citiranosti i sl.

Open Journal Systems: iskustva i preporuke - Regionalna radionica za urednike i izdavače časopisa u otvorenom pristupu

Pozivamo sve zainteresovane da uzmu učešće u Regionalnoj radionici Open Journal Systems. Radionica se organizuje u okviru Horizon Europe projekta DIAMAS i CRAFT-OA, a održaće se **u sredu, 30. oktobra 2024. godine od 14.00 do 15.30 časova**.

Učešće na radionici je besplatno, ali je registracija obavezna i može se obaviti na sledećem [linku](#).

Open Journal Systems (OJS), besplatan softver otvorenog koda koji omogućava uređivanje i objavljivanje naučnih časopisa, ima važnu ulogu u razvoju infrastrukture za naučno izdavaštvo u otvorenom pristupu, o čemu govori i činjenica da preko 40 000 časopisa iz celog sveta koristi OJS.

Alat za samoocenjivanje i proveru kvaliteta dijamantskog otvorenog pristupa

Alat za samoocenjivanje, razvijen u okviru projekta **DIAMAS**, dizajniran je da obezbedi jednostavno korisničko iskustvo za institucionalne izdavače naučnih časopisa i pružaoce usluga kako bi izvršili analizu nivoa usklađenosti sa parametrima DOAS (eng. Diamond OA Standard) i održivost (eng. SUSTAINABILITY parameters). Alat se sastoji od dva paralelna modula, i svaki se sastoji od sedam odeljaka sa određenim brojem pitanja, prilagođenih smernicama DOAS ili održivost. Moguće je popuniti samo jedan od ponuđenih modula ili oba, nakon čega se generiše izveštaj.

Detaljne informacije se nalaze na [sajtu projekta DIAMAS](#), a sam alat se nalazi na [sledećoj web stranici](#), i da biste mu pristupili potrebno je da se prvo registrujete.

Spisak pitanja možete pronaći [ovde](#).

U 2016. godini, iz akademskih institucija u Srbiji, dostupno je preko 35.000 naslova stranih naučnih časopisa u punom tekstu, blizu 160.000 naslova knjiga, kao i nekoliko indeksnih baza podataka. Pretraživanje na KoBSON portalu moguće je obaviti samo prema naslovu časopisa ili knjige. Većina časopisa je u punom tekstu dostupna od 1997. godine, dok su ranija godišta dostupna do nivoa abstrakta. Za predmetna pretraživanja po člancima upućujemo Vas ili na nekog od agregatora, ili direktno na sajt izdavača.

Pretraživanje časopisa: Spisak svih časopisa koji su na neki način dostupni u bibliotekama Srbije (bilo elektronski, bilo u papirnoj formi), proširena naslovima časopisa koji su imali Impact Faktor u poslednjih dvadeset godina. Prisustvo časopisa na toj listi je samo pokazatelj njegove dostupnosti, a nikako kvaliteta.

Objedinjena pretraga svih servisa: Pretraga se vrši preko servisa EBSCO Discovery, u okviru forme za pretragu na početnoj stranici KoBSON sajta, kao i odabirom opcije EBSCO Discovery Service na EBSCO platformi.

Elektronski časopisi: Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

Front cover image:

Measuring photosynthesis in a tobacco field trial at the University of Illinois Urbana-Champaign Energy Farm. These plants were engineered to overexpress the *Arabidopsis* CGR3 gene, which improved CO₂ diffusion across the cell wall and increased mesophyll conductance, resulting in an 8% increase in photosynthesis in the modified plants compared to the wild type. Cover illustration refers to the article published in this issue (Salesse-Smith et al., pp. 2504–2517).

Keywords: wild rice, QTL, GL12, grain length, grain weight.

To explore the natural variations in the coding region of GL12, four GL12^{oe}-based variants (M1 to M4) were generated (Figure 1e) and independently introduced into the japonica cultivar Zhonghua 11 (ZH11) under the control of the 35S promoter. OE of GL12^{oe}-M1, M2 and M3 had no effect on GL whereas OE of GL12^{oe}-M4 increased GL (Figure 1f,g), indicating that SNPs 1, 2 and 3 are functional variations. We investigated the haplotypes on the three natural polymorphisms in the 19-Gb 3K cultivated rice accessions dataset (Wang *et al.*, 2018), only two haplotypes, C-A-1 of wild rice (Hap-W) and A-G-C of 9311 (Hap-9311) were found. Almost all japonica cultivars contained the three functional SNPs of Hap-W. However, in an *indica* subpopulation, 13 accessions containing Hap-W had, on average, longer grains than the other 1013 accessions containing Hap-9311 (Figure 1h).

To decipher the biological function of the wild rice GL12^{oe} gene, we measured the rate of grain milk filling for the NIL, GL12^{oe}-OE and 9311. Significant differences in 100-grain dry weights were detected among NIL, GL12^{oe}-OE and 9311 at 15 days after fertilization (Figure 1i). Therefore, we investigated the spikeler hulls before fertilization using a scanning electron microscope. There were significantly fewer longitudinal cells in ovulelet hulls from the NIL and GL12^{oe}-OE than in 9311. However

Servisi

U 2016. godini, uz akademskih institucija u Srbiji, dostupno je preko 35.000 naslova stranih naučnih časopisa u punom tekstu, blizu 160.000 naslova knjiga, kao i nekoliko indeksnih baza podataka. Pretraživanje na KoBSON portalu moguće je obaviti samo prema naslovu časopisa ili knjige. Većina časopisa je u punom tekstu dostupna od 1997. godine, dok su ranija godišta dostupna do nivoa abstrakta. Za predmetna pretraživanja po člancima upućujemo Vas ili na nekoj od agregatora, ili direktno na sajt izdavača.

Pretraživanje časopisa: Spisak svih časopisa koji su na neki način dostupni u bibliotekama Srbije (bilo elektronski, bilo u papirnoj formi), proširena naslovima časopisa koji su imali Impakt Faktor u poslednjih dvadeset godina. Pritužno časopisa na toj listi je samo polozaj njihov dostupnosti, o nikakvo kvaliteta.

Objedinjena pretraga svih servisa: Pretraga se vrši preko servisa EBSCO Discovery u okviru forme za pretragu na početnoj stranici KoBSON sajta, kao i odabirom opcije EBSCO Discovery Service na EBSCO platformi.

Elektronski časopisi: Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

Izdavači:

- American Chemical Society
- American Physical Society
- American Psychological Association / APA
- ASME Transaction Journals
- Cambridge University Press
- Emerald Publishing

Open Journal Systems: iskustva i preporuke - Regionalna radionica za urednike i izdavače časopisa u otvorenom pristupu

Pozivamo sve zainteresovane da uzmu učešće u Regionalnoj radionici Open Journal Systems. Radionica se organizuje u okviru Horizon Europe projekta DIAMAS i CRAFT-OA, a održaće se u sredu, 30. oktobra 2024. godine od 14.00 do 15.30 časova.

Učešće na radionici je besplatno, ali je registracija obavezna i može se obaviti na sledećem linku.

Open Journal Systems (OJS), besplatan softver otvorenog koda koji omogućava uređivanje i objavljivanje naučnih časopisa, ima važnu ulogu u razvoju infrastrukture za naučno izdavaštvo u otvorenom pristupu, o čemu govori i činjenica da preko 40 000 časopisa iz celog sveta koristi OJS.

Radionica je namenjena urednicima i izdavačima časopisa u otvorenom pristupu, kako onima koji već koriste OJS, tako i onima koji to tek planiraju.

Tokom radionice će biti predstavljeno nekoliko karakterističnih primera korišćenja OJS iz regiona. Nakon kratkih izlaganja (koja će se održati na hrvatskom i srpskom jeziku), pozovaćemo vas da se uključite u razgovor i razmenu iskustava. Razgovor se može voditi na jeziku po izboru učešnika.

Organizatori: projekti DIAMAS i CRAFT-OA i Hrvatska udruga za znanstvenu komunikaciju ZNAK

(objavljeno 14.10.2024.)

Elsevier jesenja serija webinar

Alat za samooceњivanje i proveru kvaliteta dijaminskog otvorenog pristupa

Alat za samooceњivanje, razvijen u okviru projekta DIAMAS, dizajniran je da obezbedi jednostavno korisničko iskustvo za institucionalne izdavače naučnih časopisa i pružaće usluga kako bi izvršili analizu nivoa usklađenosti sa parametrima DOAS (eng. Diamond OA Standard) i održivosti (eng. SUSTAINABILITY parameters). Alat se sastoji od dva paralelna modula, i svaki se sastoji od sedam odeljaka sa određenim brojem pitanja, prilagođenih smernicama DOAS ili održivost. Moguće je popuniti samo jedan od ponuđenih modula ili oba, nakon čega se generiše izveštaj.

Detaljne informacije se nalaze na sajtu projekta DIAMAS a sam alat se nalazi na sledećoj web stranici, i da biste mu pristupili potrebno je da se prvo registrujete.

Spisak pitanja možete pronaći ovde.

(objavljeno 04.10.2024.)

EIPL webinar za bibliotekare

Pozivamo bibliotekare da uzmu učešće u besplatnim webinarima koje organizuje Međunarodni konzorcijum EIPL (Electronic Information for Libraries), čiji je Srbija član. Povod predstojeće serije webinaru jesu autorska prava i veštačka inteligencija. Četiri zakazana webinar raspoređena su u sledećim terminima:

- "Libraries, Copyright and AI (artificial intelligence) for science and research", zakazan je za **sredu, 18. septembar 2024. godine u 15.00 časova** po lokalnom vremenu (link za registraciju)

Servisi po disciplinama

Agregatori i izdavači

Dostupni izdavači:

- AC, AP, CU, EM, IOP, OX, SG, SD, SP, WI, ASME, RSC
- puni tekstovi članka često dostupni el. pre njihovog štampanja u papirnoj formi

Dostupni agregatori:

- EB, FM, HE, HW, JS, TE
- baze koje sadrže časopise više izdavača, često sadrže “embargo” period 3, 6 ili 12 meseci

Bulovi operatori

AND	Finds documents containing all of the specified words or phrases. Peanut AND butter finds documents with both the word peanut and the word butter.
OR	Finds documents containing at least one of the specified words or phrases. Peanut OR butter finds documents containing either peanut or butter. The found documents could contain both items, but not necessarily.
AND NOT	Excludes documents containing the specified word or phrase. Peanut AND NOT butter finds documents with peanut but not containing butter. NOT must be used with another operator, like AND.
NEAR	Finds documents containing both specified words or phrases within 10 words of each other. Peanut NEAR butter would find documents with peanut butter, but probably not any other kind of butter.
*	The asterisk is a wildcard; any letters can take the place of the asterisk. Bass* would find documents with bass, basset and bassinet. You must type at least three letters before the *. You can also place the * in the middle of a word. This is useful when you're unsure about spelling. Colo*r would find documents that contain color and colour.

eBook Academic Collection (EBSCOhost)

This growing subscription package contains a large selection of multidisciplinary eBook titles representing a broad range of academic subject matter, and is a strong complement for any academic collection. The breadth of information available through this package ensures that users will have access to information relevant to their research needs.

[More Information](#)

Academic Search Premier

This multi-disciplinary database provides full text for more than 4,600 journals, including full text for nearly 3,900 peer-reviewed titles. PDF backfiles to 1975 or further are available for well over one hundred journals, and searchable cited references are provided for more than 1,000 titles.

[Title List](#) [More Information](#)

CAB Abstracts 1990-Present

CAB Abstracts (1990 to Present) covers the significant research and development literature in fields of agriculture, forestry, aspects of human health, human nutrition, animal health, as well as the management and conservation of natural resources. This database offers abstracts and indexing for journals, serial publications, conference proceedings, books, theses, annual reports, patents & standards and dates back to 1990. Coverage is international in scope.

The screenshot displays the EBSCOhost search interface. At the top, the search term "antibiotic resistance" is entered in the search box. Below the search box, there are options for "AND" searches and a "Search" button. The search results are displayed in a list format, with the first result highlighted. The first result is titled "Association between the presence of CRISPR-Cas system genes and antibiotic resistance in Klebsiella pneumoniae isolated from patients admitted in Ahvaz teaching hospitals". The second result is titled "Knowledge, attitude and practice towards antibiotic use and resistance among the veterinarians in Bangladesh". The interface also includes a "Refine Results" sidebar on the left, which allows users to filter results by proximity, expanders, limiters, and publication date. A "Share" button is visible on the right side of the interface, and a "View all results" link is located at the bottom right. Pretraživanje po temi ili ključnim rečima

The screenshot shows the ScienceDirect search interface. The search results are for 'human stem cells' with 2,405 results. The left sidebar contains filters for Year, Publication title, Topic, and Content type. A yellow callout box with red text is overlaid on the search results, pointing to the word 'human' in the article titles. The callout text reads: 'Primer članka u Online First režimu'. The search results list three articles, each with a title, journal information, authors, and options to view abstracts, graphical abstracts, or research highlights. The first article is 'Efficient Derivation of Functional Human Airway Epithelium from Pluripotent Stem Cells via Temporal Regulation of Wnt Signaling'. The second is 'Making human cardiomyocytes up to date: Derivation, maturation and transplantation'. The third is 'Histone Demethylase Expression Enhances Human Somatic Cell Nuclear Transfer Efficiency and Promotes Derivation of Pluripotent Stem Cells'. The fourth article is partially visible: 'Differentiation and sarcomere formation in skeletal myocytes directly prepared from human induced pluripotent stem cells using a sphere-based culture'. The ScienceDirect logo is in the top left, and navigation links for Journals, Books, Register, and Sign in are in the top right. A KoBSON banner is also present in the top right corner.

Highlights

- SISTEMA is a curated gene expression database using human pluripotent stem cell lines
- A single experimental and analytical pipeline are used for the transcriptomic analyses
- SISTEMA is a user friendly Web portal designed for the stem cell community

Summary

Human pluripotent stem cells have ushered in an exciting new era for disease modeling, drug discovery, and cell therapy development. Continued progress

TEEAL

iz akademske institucije	udaljeni pristup
(podešavanje Proxy servera)	(o pristupu 'od kuće')

O TEEAL (The Essential Electronic Agricultural Library) bazi

TEEAL je elektronska baza podataka koja sadrži preko 560 naslova časopisa od preko 90 izdavača iz oblasti agrikulture. Pretražive su agrikulturna ekonomija, poljoprivredna tehnika, agronomija, usevi i nauka o zemljištu, entomologija, upravljanje prirodnim resursima, šumarstvo, upravljanje poljoprivredom, ishrana i nauka o hrani, biljna patologija, ruralni razvoj, održiva poljoprivreda, veterina i slične nauke i discipline.

Kratko uputstvo o pretraživanju baze

Bazu je moguće pretraživati po temi ili ključnim rečima, pri čemu se pretraga termina vrši u naslovu, autorima i sažetku. Ako želite konkretnu pretragu po naslovu, autoru ili sažetku izaberite odgovarajuću stavku iz padajuće liste.

Takođe je omogućeno i napredno pretraživanje – pretraživanje po više različitih kriterijuma istovremeno - po zadatoj temi ili autoru, sa ograničavanjem na pojedinu godinu i/ili na pretraživanje samo u okviru jednog naslova časopisa. Izborom pojedinačnog naslova časopisa dobija se lista svih radova objavljenih od 1993. godine, – izlistanih obrnuto-hronološki – od najnovijih ka starijim godištima, ali se pretraživanje može ograničiti i na samo jednu godinu.

IP:147.91.1.41

Naslov	Environmental life cycle assessment of cereal and bread production in Norway
Autor(i)	Korsaeth-A, Jacobsen-A-Z, Roer-A-G, Henriksen-T-M, Sonesson-U, Bonesmo-H, Skjeltvåg-A-O, Strømman-A-H
Abstract	We assessed the environmental impacts of producing bread, as delivered to the consumer, assuming the use of Norwegian ingredients only. Ten impact categories, including global warming potential (GWP), were quantified by mixed modelling and life cycle assessment. Firstly, we quantified the impacts of growing barley, oats, winter and spring wheat on 93 farms that were representative of the main cereal production regions in Norway. We used wide system boundaries, which included all relevant processes occurring both pre-farm and on-farm. Secondly, we assessed a representative production chain for bread, including transport, milling, baking and packing processes. On-farm processes accounted for a large share of the environmental impacts attributable to the production of bread (e.g. 50% for GWP). There is thus considerable potential for environmental improvements through changes in farm management. In total, the GWP per kg of bread (freshweight) was 0.95 kg CO ₂ -equivalent. The environmental footprint of transport was small.

Upravljanje rezultatima pretrage

The screenshot shows a search results page for "information literacy" on the MyEBSCO platform. The search bar at the top contains the query "information literacy". Below the search bar, there are several filter buttons: "All filters (5)", "Full Text", "Peer Reviewed", "Past 10 years", and "Academic Jou...". The results section shows a total of 3,902 results, indicated by an orange arrow. The first result is a publication titled "Journal of information literacy" with subjects: Bibliography, Library science, Information resources (General); Social Sciences - Library and Information Sciences... ISSN: 1750-5968. The second result is a research starter titled "Information literacy" from the Salem Press Encyclopedia, 2024. The third result is an academic journal article titled "Building a Bridge between Skills and Thresholds: Using Bloom's to Develop an Information Literacy Taxonomy" published in the Journal of Information Literacy, 2024. The fourth result is another academic journal article titled "A Three-Year Mixed Methods Study of Undergraduates' Information Literacy Development: Knowing, Doing, and Feeling". On the right side, there is a sidebar with "All filters" and "Active filters". The active filters are: "Academic journals", "english", "academic libraries", "Full Text", and "Past 10 years". The sidebar also includes "Expanders" and "Advanced search" options.

Indeksne baze

Indeksne baze podataka sadrže bibliografske podatke o radovima iz časopisa koji su u njima zastupljeni. Za svaki članak dati su detaljni podaci:

- autor rada i institucija
- naslov rada
- naziv časopisa
- godina
- jezik rada
- tip rada
- sažetak

Ukoliko zapis obuhvata i popis korišćene literature, takve baze nazivamo citatnim (Web of Science, Scopus, Srpski citatni indeks).

O bazi
MEDLINE je vodeća svetska bibliografska baza iz oblasti biomedicinskih nauka. Dostupna je besplatno.
Pored bibliografskih podataka o svakom članku iz preko 5.000 časopisa, uspostavljen je i link do punog teksta. Dostupnost članka u punom tekstu uslovljena je pretplatom na elektronsku verziju časopisa (preko KoBSON-a ili na neki drugi način).
Svaki članak se indeksira odrednicama iz kontrolisanog terminološkog tezaurusa Medical Subject Headings - MeSH (<http://www.nlm.nih.gov/mesh/meshhome.html>), koji obuhvata preko 24.500 odrednica uređenih hijerarhijski na devet nivoa.

Alert

Korišćenje Alert opcije

Izdavači naučnih baza podataka pružaju registrovanom korisniku mogućnost korišćenja *Alert* servisa. Ta opcija Vam omogućava da sačuvate korišćene upite kako biste ih kasnije ponovo izvršavali. Osim toga, možete ih koristiti kao zahtev za periodično slanje izveštaja o novodotatim člancima koji odgovaraju tim upitima.

Da biste koristili ovu pogodnost neophodno je da korisnik otvori svoj lični nalog (registruje se) na svakom servisu pojedinačno. Te registracije su besplatne i međusobno nezavisne i nemaju nikakve veze sa KoBSON nalogom.

Postoji nekoliko tipova Alerts obaveštenja:

1. *Search Alerts* – obaveštenja vezana za pretrage. Ako korisnik odluči da sačuva određenu formu i sadržinu pretrage (npr. konkretnu konfiguraciju ključnih reči i imena autora po kojima je pretraživao bazu, slika ispod), ima mogućnost da putem Alerts aplikacije konfiguraciju konkretne pretrage sačuva, a da mu servis automatski šalje obaveštenje na e-mail adresu kada god se u bazi pojavi neki novi članak koji odgovara kriterijumima pretrage.
2. *Volume/Issue Alerts* – obaveštenja vezana za nove brojeve i sveske časopisa. Korisnik može da izabere časopise za koje želi da dobija obaveštenja kada god izađe nova sveska časopisa, naravno pod uslovom da se taj časopis referiše u bazi.
3. *Citation Alerts* – obaveštenja vezana za citiranje izabranih članaka. Korisnik može da traži da mu se za određene članke šalju obaveštenja kada god se u bazi pojavi neki novi rad koji citira izabrani članak.

SKRAĆENICE NA KoBSONu

Možda Vam zatreba - RSS

The image shows a screenshot of the KoBSON website's navigation menu. The logo 'KoBSON' is on the left. The main navigation bar includes: KoBSON, INFORMACIJE, NAUKA U SRBIJI, SERVISI, MOŽDA VAM ZATREBA (highlighted with an orange oval), and SUGESTIJE I ZAMERKE. Below this is a secondary menu with: Google alati, Intelaktualna prava, Razrešavanje, Creative Commons (CC), Čemu služi (highlighted with an orange oval), Deep Web Technologies, Vrednovanje, Open Access, and Predatorski časopisi. A horizontal bar contains links: EleČas >, EleKnjige >, Naši u WOS >, Brza stranica >, Pomoć >, Impresum >, and Pratile nas: with social media icons. The breadcrumb trail reads: Početak / MOŽDA VAM ZATREBA / Čemu služi. The 'RSS' link is highlighted with an orange oval. The main content area is divided into two columns: 'Šta je RSS?' and 'Korisni linkovi'.

Početak / MOŽDA VAM ZATREBA / Čemu služi

RSS

Šta je RSS?

RSS (Really Simple Syndication) predstavlja aplikaciju za automatsko preuzimanje podataka sa internet sajtova. Uz pomoć RSS aplikacija moguće je pratiti promene na web lokaciji od interesa bez posećivanja samog sajta. RSS automatski preuzima podatke o promenama na sajtu i obaveštava korisnika o njima. Ako se na sajtu pojavi neka nova vest, tekst ili neki drugi sadržaj, korisnik dobija informaciju o tome.

Postoje dva preduslova da bi RSS funkcionisao:

1. Da web sajt ima RSS aplikaciju, tj. da je moguće preuzimati informacije na ovaj način sa njega.
2. Da korisnik ima aplikacije za čitanje RSS-a, kao i da određenu web lokaciju unese u listu sajtova za RSS informacije.

Ove aplikacije se mogu besplatno preuzeti sa Interneta.

Za istraživača koji želi da prati određene naučne časopise u elektronskoj formi (npr. preko KoBSON-a), RSS predstavlja odlično rešenje, jer se sve promene, tj. pojavljivanje novog broja i novih tekstova, automatski detektuju i informacija stiže direktno korisniku, štedeći na taj način njegovo vreme.

1. **Lymphomatoid Granulomatosis in a 14-Year-Old Boy with Trisomy 21 and History of B-Lymphoblastic Leukemia/Lymphoma.**
(English); Abstract available. By: Matynia AP; Perkins SL; Li D, Fetal And Pediatric Pathology [Fetal Pediatr Pathol], ISSN: 1551-3823, 2018 Feb; Vol. 37 (1), pp. 7-14; Publisher: Informa Healthcare; PMID: 29336635
Subjects: Antineoplastic Combined Chemotherapy Protocols adverse effects; Immunocompromised Host; Lymphomatoid Granulomatosis complications; Lymphomatoid Granulomatosis immunology; Neoplasms, Second Primary complications; Precursor Cell Lymphoblastic Leukemia-Lymphoma complications; Adolescent: 13-18 years; All Child: 0-18 years; Male
Academic Journal

2. **The heterogeneity of tumor-infiltrating CD8+ T cells in metastatic melanoma distorts their quantification: how to manage heterogeneity?**
(English); Abstract available. By: Obeid JM; Hu Y; Erdag G; Leick KM; Slingluff CL Jr, Melanoma Research [Melanoma Res], ISSN: 1473-5636, 2017 Jun; Vol. 27 (3), pp. 211-217; Publisher: Lippincott Williams & Wilkins; PMID: 28118270
Subjects: CD8-Positive T-Lymphocytes immunology; Lymphocytes, Tumor-Infiltrating immunology; Melanoma immunology; Neoplasms, Second Primary immunology; Skin Neoplasms immunology
Academic Journal

3. **Nuclear IRF-1 expression as a mechanism to assess "Capability" to express PD-L1 and response to PD-1 therapy in metastatic melanoma.**
(English); Abstract available. By: Smithy JW; Moore LM; Pelekanou V; Rehman J; Gaule P; Wong PF; Neumeister VM; Szoln M; Kluger HM; Rimm DL, Journal For Immunotherapy Of Cancer [J Immunother Cancer], ISSN: 2051-1426, 2017 Mar 21; Vol. 5, pp. 25; Publisher: BioMed Central; PMID: 28331615
Subjects: B7-H1 Antigen genetics; Biomarkers, Pharmacological; Interferon Regulatory Factor-1 genetics; Melanoma drug therapy; Melanoma genetics; Adult: 19-44 years; Aged: 65+ years; Middle Aged: 45-64 years; All Adult: 19+ years; Female; Male
Academic Journal

4. **Evaluating the skin in patients undergoing chimeric antigen receptor modified T-cell therapy.**
(English) By: Rubin CB; Elenitsas R; Taylor L; Lacey SF; Kulikovskaya I; Gupta M; Melenhorst JJ; Loren A; Frey N; June CH; Porter D; Rosenbach M, Journal Of The American Academy Of Dermatology [J Am Acad Dermatol], ISSN: 1097-6787, 2016 Nov; Vol. 75 (5), pp. 1054-1057; Publisher: Mosby; PMID: 27745631
Subjects: Blood Transfusion, Autologous adverse effects; Immunotherapy adverse effects; Lymphocyte Transfusion adverse effects; Skin Diseases etiology; T-Lymphocytes, Cytotoxic transplantation; Adult: 19-44 years; Aged: 65+ years; Middle Aged: 45-64 years; All Adult: 19+ years; Male
