AND

HOW

USER NEED IT.
“EBSCO Discovery Service helps users of services at National Library of Greece to discover more resources that previously they would not have found. Having EDS as first service on library web page, we can notice a trend of increased usage of all our resources and valuable content.”
“EBSCO Discovery Service is definitively starting search point for users of services at National Library of Greece. This is our searching Α (Alpha) and Ω (Omega).”
“EBSCO Discovery Service makes difference. It is matching our desires and preferences to make available high-quality and valuable materials easy to search to wider user population.”
