

Establishing the National Diamond Open Access Capacity Centre in Serbia

Boris Đenadić¹, Aleksandra Kužet¹, Katarina Perić¹,
Milica Ševkušić^{2,3}, Tatjana Timotijević¹

¹ KoBSON, National Library of Serbia, Belgrade, Serbia

² Institute of Technical Sciences of SASA, Belgrade, Serbia

³ EIFL, Lithuania

Serbia's Diamond OA landscape

~400 scholarly journals that do not charge fees to either authors or readers

Diamond OA endorsed by the national open science policy

Public subsidies available exclusively to Diamond OA journals

Fragmented infrastructure

Why a national capacity centre?

- Develop a publishing culture based on openness, quality, integrity, and community ownership
- Foster collaboration among institutional publishers, editors, and policymakers
- Promote sustainable and equitable funding mechanisms
- Mitigate fragmentation
- Connect local and European efforts
- Serve as a national node within the European Diamond Capacity Hub (EDCH)

Who is involved?

National library consortium supported by
EIFL Country Coordinators in Serbia
