Driving force behind open access

Open Access

Authors: their work is not seen by all their peers – do not receive the recognition they deserve
Readers: cannot view all research literature they need – less effective
Libraries: cannot satisfy information needs of their users

Training for PhD students

- Whole day training designed for the Ministry scholarships
- Started in 2008.
- 7 different lectures, 5 lecturers

Problems ☹️

- Lack of employees and human resources
- Prohibition of employment more than -two year period-
- Do not have a stable team
- Contract delay
- Currency influences

Advantages 😊

- A lot of satisfied users and their huge support
- Excellent collaboration with Ministry representatives
- Excellent collaboration and understanding from publishers
