(objavljeno 11.09.2020.)

## Besplatno publikovanje radova u OA časopisima izdavača Cambridge University Press

U dogovoru sa izdavačima iz Srbije pruža mogućnost publikovanja radova u OA časopisima izdavača Cambridge University Press. Access i Hybrid Open Access.

A lot of useful links...

Kako ostvariti APC popust.

Autori koji ispunjavaju uslove za besplatno/sa popustom publikovanje u OA časopisima Cambridge izdavača će nakon što su popunili obrazac za publikovanje rada dobiti email od RightsLink-CCC kompanije, koja u ime Cambridge-a naplaćuje APC naknadu. Svi autori moraju da prođu kroz ovaj postupak. Autori iz zemalja koje ispunjavaju uslove treba da odaberu svoju zemlju i zatim da odaberu opciju „Primeni popuste“ (eng. Apply Discounts).

Na sledećoj stranici se nalaze tipovi radova koji zadovoljavaju uslov za publikovanje bez troškova.

Lista časopisa se nalazi na sledećem linku.

Detaljnije informacije možete pronaći na stranici izdavača Cambridge University Press.

**Open Access Waivers and Discounts: Check your eligibility**

We've partnered with over 2,300 institutions across the globe to help you publish your research Gold Open Access (OA). If your institution has an open access publishing agreement (also known as transformative agreements), you may publish your article gold OA at no cost to you, or with a discount for your article processing charge (APC). You can also enjoy access to journals content from Cambridge University Press.

To find out if you're eligible, please use our new checker tool. You can also explore our current agreements below.

# Support to authors

- Romy sent emails directly to the Serbian corresponding authors with the information about APC discounts and the list of publishers and applicable journals
- We sent emails to the Universities and Faculties librarians to share the information with their users/professors
- We are helping authors to select the best available journal for their manuscript (covered with APC discount/waiver)
- We are helping them with online submission process (ORCID, GRID, T&F tokens, etc.)
